

# EROWA

## General Catalog

Unlocking the full potential of your machines

**EROWA**<sup>®</sup>  
System solutions  
from one single source

# Welcome to the EROWA General Catalog

Competence means  
understanding the facts.  
EROWA products are based  
on this competence.

The use of the EROWA  
FMC concept only has  
one single aim:

**to increase  
competitiveness.**

We'll be glad to be  
of assistance.

With practical advice.

Your EROWA Team

# This is how the General Catalog works

To make it easier for you to find your bearings among all the applications of EROWA products, we use the following icons in all our documents:

-  1. Manual operation
-  2. Operate with compressed air jet
-  3. Operate with manual valve
-  4. Operate with manual control unit
-  5. Operate with electro-pneumatic control unit
-  6. With central flushing clearance
-  7. Suited for submerged operation
-  8. Corrosion-resistant material
-  9. Suited for automatic operation
-  10. Handling with EROWA Robot gripper S
-  11. Handling with EROWA Combi gripper
-  12. Handling with EROWA Robot gripper 72
-  13. Handling with EROWA Robot gripper 115
-  14. Handling with EROWA Robot gripper 148
-  15. Handling with EROWA gripper RN PC 210
-  16. Handling with EROWA RCS gripper

- Suitable for:**
-  For chip-removing processes
  -  For EDM sinking
  -  For WEDM

**1 Standardization**

Red marks everything that is connected with **palletizing systems**.

**2 Organization**

Yellow is used for **measuring and presetting stations**.

**3 Automation**

The color green directs you to **handling facilities**.

**4 Integration**

Software and **process control systems** are marked blue.

# EROWA Palletizing systems

Integration

Automation

Organization

1  
Standardization

**Standardization** of mechanical interfaces. The integration of a universal tooling system on all machine tools will significantly reduce any downtimes.

## The datum point tooling system

The EROWA MTS (Modular Tooling System) is an open system. The maximum workpiece size exclusively depends on the possibilities offered by the machine. Whether it is a case of single palletization with one MTS chuck or multiple palletization with several MTS chucks or base plates - any combination is possible. MTS chucks can be operated manually or automatically.

New jobs are set up while the machine is in productive operation. Express jobs can be positioned on the machine within seconds. After that, the previous production process can be resumed. Therefore, machine down-times are reduced to a minimum.

### The datum point is defined!

No alignment is necessary.

### Minimum set-up times thanks to a standardized interface!

The interface between the machine and the workpieces/fixtures is standardized. The modular design of the clamping equipment allows for an almost unlimited number of combinations of all the components.

### Make use of existing equipment!

Vises, gauges and fixtures are palletized or equipped with chucking spigots and put into production right away.

### 5-sided machining in one single clamping process!

Once the workpiece has been clamped on an EROWA pallet, 5 sides can be machined with that one clamping process.

- Play-free prismatic centering in MTS single chucks.
- Indexable 4 x 90°.
- More than 500,000 clamping processes without any loss of power or reference accuracy.
- Clamping surfaces without recesses can be cleaned with compressed air.
- Low profile design.
- Suitable for automatic pallet change.
- Standardized set-up distances\* of 200 mm or 250 mm on all EROWA base plates.

\*) The set-up distance is the distance between the MTS chucks on a base plate.

## Applications

Milling/Turning

Drilling/Milling

Grinding

## Handling

Manual

Loading facility

Robot

## Function

Play-free round-cone centering.

Repeatability: <0.005 mm.

Easy insertion of the pallets without any jamming.

Reliable clamping mechanism through self-locking ball lock. Stable, low level of vibration.

Opened: Pneumatically or hydraulically.

Liquids can drain off. No dirt traps.

### Opening, hydraulic

The hydraulic MTS chuck with 20,000 N clamping power only requires 25 bar opening pressure.

### Opening, pneumatic

A mere 7 bar of opening pressure results in 12,000 N clamping power thanks to internal power boosting.

MTS chuck, able to automate. Automatic cleaning of contact surfaces and of the centering spigots cone while the workpiece is changed.

## Technical data

	MTS pneumatic	MTS hydraulic
Repeatability	<0.005 mm	<0.005 mm
Activation	clamped without pressure	
Opening pressure	min. 7 bar	min. 25 /max. 35 bar
Process monitoring	pneumatically	pneumatically
Clamping power	12,000 N/Chuck	20,000 N/Chuck

# EROWA MTS

## The tooling system for your manufacturing processes

Practical work demonstrates the flexibility of the EROWA MTS tooling system. Whether it is a standard solution or a customized configuration, the system will adapt to virtually any machine situation.

The system's universality allows for a wide variety of workpiece carriers to be loaded and unloaded in next to no time. The automation of the workpiece loading/unloading cycle can be retrofitted at any time.

Customized solutions are included. We will gladly advise you.

Various jobs can be done on one machine. Express jobs can easily be placed in between. Resetting the clamping equipment only takes a few seconds.

Automatic pallet change in mixed operation with MTS and ITS pallets. Such combinations allow for an optimal use of the tooling system according to part sizes.

The low profile design of the EROWA MTS leaves a great deal of space for workpieces.

Thanks to the medium duct between chuck and pallet, workpieces may be clamped pneumatically, hydraulically or with a vacuum.

MTS chuck, able to automate. During the workpiece change, the contact surfaces are cleaned automatically.

Variable use of tombstones. The MTS system provides an interface to fixtures and vises. Refitting takes no time at all.

From the manual handling facility to the complex Robot system, EROWA supplies the handling solution you require.

Reputable clamping equipment manufacturers offer vises with integrated EROWA MTS chucking spigots.

**Version** Cast aluminum pallet, 4-fold, excluding chucking spigot (MTS chucking spigot set ER-041461 (M) / ER-041464 (A)).

**Application** To clamp workpieces, vises and gauges.

**Accessories** ER-041461 (M) / ER-041464 (A) to be ordered separately.

## ER-054981 MTS pallet 600 x 800 x 57 / 250 Hard Z support

**Version** Cast aluminum pallet, 6-fold, excluding chucking spigot (MTS chucking spigot set ER-054710(A), ER-041432 (M)).

**Application** To clamp workpieces, vises and gauges, for chip-cutting operations

**Accessories** To be ordered separately ER-054710(A), ER-041432 (M).

Standardization

### ER-033602 MTS pallet P ø 148 Alu

**Version** Aluminum pallet, fitted with centering plate ER-033600, including chucking spigot ER-039200.

**Application** To clamp workpieces and gauges. For manual handling.

### ER-033600 MTS centering plate P

**Version** Steel, including attachment bolts and positioning pins.

**Application** For the production of customized and indexable MTS pallets.

**Accessories** Chucking spigot ER-039200 to be ordered separately.

### ER-041928 MTS pallet P ø 148 Inox

**Version** Steel pallet, not hardened, including chucking spigot ER-040999. Centering segment integrated in the pallet body.

**Application** To clamp workpieces and gauges. For manual handling and automatic operation.

**Note** Compatible with EROWA PC210 CombiChuck and PowerChuck P (ITS chucking spigot ER-010742 required).

### ER-040999 MTS chucking spigot P

**Version** One chucking spigot, including attachment bolt and protective cap.

**Application** For the conversion of ITS pallet ø 148 ER-041912 into MTS pallet P ø 148 ER-041928.

## Chucking spigots

### ER-033800 MTS centering spigot

**Version** One chucking spigot with centering function (without play), including attachment bolts (M10x50, M12x55), U-disc and protective caps.

### ER-039201 MTS compensation spigot / A

**Version** One chucking spigot with compensation function, including attachment bolts (M10x50, M12x55), U-disc and protective caps.

### ER-039200 MTS chucking spigot / A

**Version** One chucking spigot without centering (centering play 0.1mm), including attachment bolts (M10x50, M12x55), U-disc and protective caps.

### ER-038000 MTS centering spigot / A

**Version** One chucking spigot with centering function, including attachment bolts (M10x50, M12x55), U-disc, O-ring and protective caps.

**Application** For MTS pallets which are loaded/unloaded automatically. The centering spigot defines the datum point without play and closes the cleaning boreholes in the MTS Chucks / A.

ER-033800 MTS centering spigot  
ER-038000 MTS centering spigot / A  
The **centering spigot** defines the datum point (free of play).

ER-039200 MTS chucking spigot / A  
(centering play 0.1 mm).

ER-039201 MTS compensation spigot / A  
The **compensation spigot** positions the pallet in one axis only (X or Y) and is capable of compensating for a maximum set-up distance difference of 0.1 mm.

## Chucking spigot set

EROWA MTS palletizing system

1

Standardization

### ER-041460 MTS chucking spigot set 2

**Version** 1 centering spigot, 1 compensation spigot / A.  
**Mounting** With the bolts supplied through the pallet or through the chucking spigot.

### ER-041461 MTS chucking spigot set 4

**Version** 1 centering spigot, 1 compensation spigot / A, 2 chucking spigots / A.  
**Mounting** With the bolts supplied through the pallet or through the chucking spigot.

### ER-041464 MTS chucking spigot set 4 / A

**Version** 1 centering spigot / A, 1 compensation spigot / A, 2 chucking spigots / A.  
**Mounting** With the bolts supplied through the pallet or through the chucking spigot.

### ER-041462 MTS chucking spigot set 6

**Version** 1 centering spigot, 1 compensation spigot / A, 4 chucking spigots / A.  
**Mounting** With the bolts supplied through the pallet or through the chucking spigot.

### ER-054710 MTS Chucking spigot set 6/A

**Version** 1 centering spigot / A, 1 compensation spigot / A, 4 chucking spigots / A.  
**Mounting** With the bolts supplied through the pallet or through the chucking spigot.

### ER-041463 MTS chucking spigot set 8

**Version** 1 centering spigot, 1 compensation spigot / A, 6 chucking spigots / A.  
**Mounting** With the bolts supplied through the pallet or through the chucking spigot.

## Operation

### ER-025893 Manual control unit with booster

- Version** Manual valve to control the EROWA chucks:  
Opening/Reclamping/Cleaning.
- Application** Operation of: EROWA ITS Compact Combi Chuck, ITS, UPC, MTS, PC 210 chucks and PowerChuck P.
- Note** Integrated booster with load ratio 1:2 (up to output pressure of 10 bar max.).

### ER-039466 Additional valve double

- Version** For mounting to the manual control units ER-008988 and ER-025893, incl. set of hoses.
- Application** Operating of two separate chucks with one single control unit.

### ER-001846 Air jet

- Version** Plastic, smooth regulation of air flow, connection 1/4", inside thread.
- Application** Operation of manual chucks.

### ER-010520 Pressure booster

- Version** Quick-connect couplings for hose  $\varnothing i = 8$  mm.  
Output pressure: 8 bar. Compression ratio: 1:2
- Application** On insufficient system pressure and on pressure fluctuations.
- Installation** Integrate in air circuit near application.

**ER-033497 Pneumatic/hydraulic pump**

**Version** Manual pump to control the EROWA MTS chucks (hydraulic versions).  
**Note** Integrated pressure reducing valve, set to the necessary operating pressure (25 bar). Complete with hydraulic tube (2 m) and plug coupling (ER-033499).

**ER-034820 MTS air coupling**

**ER-034822 MTS air coupling pallet**

**Application** The MTS air coupling ER-034820 combined with the MTS air coupling ER-034822 serves as a pneumatic interface between MTS base plates (A) and MTS pallets (B).

**ER-044426 Nipple for MTS base plates**

**ER-044428 Coupling for MTS pallets**

**Application** The coupling for MTS pallets ER-044428, in combination with the nipple for MTS base plates ER-044426, serves as an interface for the medium connection between MTS base plates (A) and MTS pallets (B).  
**For use** with oil up to 250 bar  
 with compressed air  
 with vacuum

MTS

## Tube set

### ER-034361 Tube set for MTS chuck 2/4-P

**Application** All the necessary fittings for the pneumatic control of 2 or 4 MTS chucks. Max. operating pressure: 9 bar.

**Version**  
2 T-Plugs  
2 Cross plug connectors  
3 Straight threaded connectors  
1 Connector block  
8 m Tube  $\varnothing$  6/4 black  
8 m PMAFLEX corrugated pipe 1 Valve, complete (for air jet ER-001846).

**Mounting** According to instruction manual supplied.

### ER-034359 Tube set for MTS chuck 2/4-H

**Application** All the necessary fittings for the hydraulic control of 2 or 4 MTS chucks. Max. operating pressure: 40 bar.

**Version**  
2 Threaded T-connectors  
2 Threaded cross connectors  
3 Straight threaded connectors  
24 Support sleeves  
1 Connector block  
8 m Tube  $\varnothing$  4/2 yellow PA  
8 m PMAFLEX corrugated pipe 1 Nipple 1/8" (for pneumatic/hydraulic booster ER-033497)

**Mounting** According to instruction manual supplied.

### ER-034362 Tube set for MTS chuck 6/8-P

- Application** All the necessary fittings for the pneumatic control of 6 or 8 MTS chucks. Max. operating pressure: 9 bar.
- Version**
- 2 T-plugs
  - 6 Cross plug connectors
  - 3 Straight threaded connectors
  - 1 Connector block
  - 12 m Tube  $\varnothing$  6/4 black
  - 12 m Corrugated pipe
  - 1 Valve, complete (for air jet ER-001846).
- Mounting** According to instruction manual supplied.

### ER-034360 Tube set for MTS chuck 6/8-H

- Application** All the necessary fittings for the hydraulic control of 6 or 8 MTS chucks. Max. operating pressure: 40 bar.
- Version**
- 2 Threaded T-connectors
  - 2 Threaded cross connectors
  - 3 Straight threaded connectors
  - 48 Support sleeves
  - 1 Connector block
  - 12 m Tube  $\varnothing$  4/2 yellow PA
  - 12 m PMAFLEX corrugated pipe
  - 1 Nipple 1/8" (for pneumatic/hydraulic booster ER-033497)
- Mounting** According to instructon manual supplied.

### ER-034168 MTS Connector block 1/8" double

- Version** Connector block made of steel, excluding attachment bolts.
- Application** To receive pneumatic and hydraulic threaded connectors, nipples and couplings.

# EROWA MTS

## Accessories

### ER-042038 MTS cover

**Version** Aluminum cover, anodized, for all MTS chucks.  
**Application** Protects MTS chucks that are not in use from chips and coolant.

### ER-033804 MTS ring bracket

**Version** Bracket made of steel, excluding attachment bolts.  
**Application** To attach MTS chucks onto the machine table.

### ER-033805 MTS bracket 1 piece

**Version** Bracket made of steel, excluding attachment bolt.  
**Application** To attach MTS chucks onto the machine table.  
**Note** Four brackets are necessary per MTS chuck.

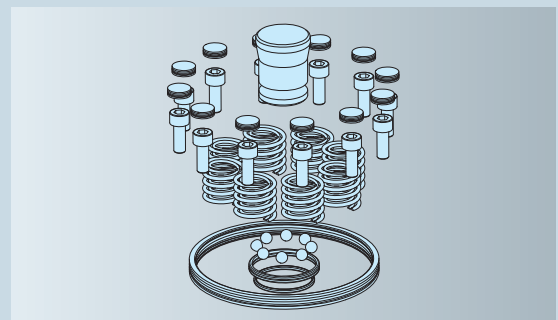

### ER-037967 MTS stopper

**Version** Steel.  
**Application** To plug the central borehole of all the MTS chucks.

### ER-034382 MTS repair set pneumatic

**Version** All the wearing parts for pneumatic MTS chucks.  
**Application** As a repair set or for the conversion of hydraulic MTS chucks into pneumatic ones.  
**Note** Repair or conversion according to instruction manual supplied.

**ER-034383 MTS repair set hydraulic**

**Version** All the wearing parts for hydraulic MTS chucks.  
**Application** As a repair set or for the conversion of pneumatic MTS chucks into hydraulic ones.  
**Note** Repair or conversion according to instruction manual supplied.

**ER-038622 MTS Gripper Link Rapid**

**Version** Coupling for MTS pallets, mounting accessories included.  
**Application** Suited for MTS pallets to be used on EROWA handling devices with the RCS coupling system.

**ER-035294 EWIS™ chip with holder / RCS**

**Version** Holder with built-in datacarrier.  
 EWIS chip: read only.  
**Application** To build into RCS coupling, PalletSet W holder and Basic WEDM holder.

**ER-035154 EWIS™ chip with holder SW14**

**Version** Sleeve fitting with built-in datacarrier.  
 EWIS chip: read only.  
**Application** In any EROWA electrode holder and pallet which have been prepared for it.

# EROWA MTS

## Accessories

### ER-048478 MTS Chip guard low

**Version** Aluminum, anodized  
**Application** The MTS chip guard serves to seal the automatic MTS chucks and base plates when MTS pallets are used.  
**Note** The MTS chip guard low cannot be combined with the MTS pallet P ø 148 Inox, ER-041928.

### ER-056879 MTS Chip guard ø 156 with axial deaeration

**Application** For use with MTS pallet P ø 148. Prevents dirt and chips from penetrating into the MTS SingleChuck

### ER-046690 MTS Flushing seal / 250

**Version** Synthetic.  
**Application** Prevents dirt from penetrating into MTS base plates 410 x 410 with the use of EROWA MTS pallets 398 x 398 / 250 and 498 x 498 / 250.

### ER-049041 MTS seal frame set / 200

**Version** Aluminum anodized, with seal.  
**Application** The MTS seal frame set serves to protect MTS chucks against dirt and liquids when in use with an EROWA MTS pallet.

### ER-046689 MTS Flushing seal / 200

**Version** Rubber  
**Application** Prevents dirt from penetrating into MTS base plates 360 x 360 in combination with MTS pallets 398 x 398 / 200.  
**Note** The MTS base plate must have, or be equipped with, the groove (A) to accommodate the seal.

**ER-014326 Straight threaded connector**

**Application** Pneumatic.

**ER-002814 Angled connector**

**Application** Pneumatic.

**ER-014366 Threaded T-connector**

**Application** Pneumatic.

**ER-014333 T-connector**

**Application** Pneumatic.

**ER-034095 Cross-connector**

**Application** Pneumatic.

**ER-002023 Tube ø 6/4 black**

**Application** Pneumatic. Max. operating pressure: 9 bar.  
**Order unit** Meters.

**ER-036672 MTS air jet valve**

**Application** Pneumatic. For air jet ER-001846.

## Accessories

### ER-033492 Straight threaded joint

**Application** Hydraulic and pneumatic.  
**Note** Hydraulic operation requires support sleeve ER-033496.

### ER-033565 Angular connector

**Application** Hydraulic and pneumatic.  
**Note** Hydraulic operation requires support sleeve ER-033496.

### ER-033566 Angled T-connector

**Application** Hydraulic and pneumatic.  
**Note** Hydraulic operation requires support sleeve ER-033496.

### ER-033960 Threaded joint T

**Application** Hydraulic and pneumatic.  
**Note** Hydraulic operation requires support sleeve ER-033496.

### ER-033494 Cross union

**Application** Hydraulic and pneumatic.  
**Note** Hydraulic operation requires support sleeve ER-033496.

### ER-002147 Reinforced pipe PMAFlex Co-Flex divisible

**Application** Hydraulic and pneumatic. Protects tubes ER-033495 and ER-002023 from damage.  
**Order units** Meter.

**ER-034098 Reduction nipple G1/4" - G1/8"**

**Application** Hydraulic and pneumatic.

**ER-001539 Double nipple MS 1/8" - 1/8"**

**Application** Hydraulic and pneumatic.

**ER-034372 Reduction bushing IG1/8" - IG1/4"**

**Application** Hydraulic and pneumatic.

**ER-034373 Reduction bushing IG 1/8" - IG 1/8"**

**Application** Hydraulic and pneumatic.

**ER-034375 Reduction nipple AG 1/4" - IG 1/8"**

**Application** Hydraulic and pneumatic.

**ER-001617 Threaded plug 1/8"**

**Application** Hydraulic and pneumatic.

# EROWA MTS

## Accessories

### ER-033495 Tube $\varnothing$ 4 / 2

**Application** Hydraulic.  
**Version** Max. operating pressure: 40 bar.  
**Order unit** Meters.  
**Note** If the operating pressure is 8 bar or higher, you need the support sleeve ER-033496.

### ER-033496 Support sleeve

**Application** Hydraulic, if the operating pressure is 8 bar or higher.

### ER-033504 Nipple 1/8"

**Application** Hydraulic. With blocking device. Fits fast coupling ER-033499.

### ER-033499 Rapid-action coupling 1/8" IG

**Application** Hydraulic. With blocking device. Fits fast nipple ER-033504.

# EROWA UPC

you might as well try to  
move a mountain

## A few highlights:

- Air-cleaned support surfaces.
- Economically priced centering segments for the in-house construction of pallets.
- Pallets can index 4 x 90°.
- Stable centering segments with patented initial tension.
- ITS chuck can be integrated in the center (option).
- Four fixed chucking spigots which also serve as supports for pallet storage.
- Economically priced aluminum pallets with hardened Z-supports as a basis for any fixture.

**EROWA's UPC (Universal Power Chuck) breaks through the conventional limits of precision, stability and workpiece size. Now, 500 x 500 x 500 mm have ceased to be a problem. And the 2- $\mu$ m precision will not be impaired at all.**

**A decisive factor for ITS users: the central ITS chuck guarantees seamless integration into the existing system.**

## Applications

Presetting

Milling / turning

Drilling / milling

Grinding

EDM sinking

## Handling

Manual

Loading facility

Robot

## Function

UPC open

UPC closed

The functional elements have been designed with every conceivable simplicity. This makes for a favorable price. The few movable parts guarantee high functional safety. The lock creates a retaining power of 50,000 N. The big distance between the supports

creates an extreme degree of platform stability. Precentering is done by means of the chucking spigots. Precise positioning is then achieved by four stable centering segments in the pallet and chuck. Release and cleaning are achieved by means of compressed air.

## Technical data

	UPC	UPC P «Production»
Pallet size	320 x 320 mm	320 x 320 mm
Chuck dimensions	280 x 280 mm	320 x 300 mm
System height (chuck and pallet)	105 mm	105 mm
Recommended workpiece sizes	≤ 500 x 500 x 350 mm	≤ 500 x 500 x 500 mm
Repeatability	0.002 mm	0.002 mm
Indexation, pallet	4 x 90°	4 x 90°
Activation	clamped without pressure	
Air pressure, dry	min. 6 bar	min. 6 bar
Operation	manually or with automatic control unit	
Process monitoring	pneumatically, evaluation electro-pneumatically	
Clamping power	32,000 N	50,000 N

EROWA®

UPC

# EROWA UPC in operation

## universal, powerful,

## micron-accurate

The UPC tooling system is suitable for flexible use. Whether big electrodes on the quill of EDM centers or big workpieces in milling machines: the UPC has been designed to cope with them, and it does.

With a repeatability of 2  $\mu\text{m}$ , the UPC does not leave any wishes unfulfilled with regard to precision, either.

On a clamping surface of up to 500x500mm, even large workpieces or fixtures can be attached to the UPC pallet without any problems.

The UPC on the machine table constitutes the interface with the workpiece carrier. Resetting takes next to no time, and production can resume.

Practical! EDMing on the UPC magnet pallet.

Suitable PreSet stations are available for setting up and presetting - manual or CNC.

Multiple fixture on a UPC pallet.

The advantage on the horizontal machining center: five sides are accessible, the pallet indexes 4 x 90°.

UPC was designed for automatic loading without any compromise.

**Reliable - resistant to dirt.  
Robust - developed for  
continuous operation.**

UPC Pallet Alu DG – light and handy.

Short set-up times with flexible clamping elements: EROWA ClampSet vises on UPC grid pallet.

UPC - also for big workpieces: profiling on UPC pallet.

EROWA®

## Pallets

EROWA UPC palletizing system

### ER-016917 UPC pallet Alu 320 x 320 x 40

**Version** Aluminum, with centering segments and chucking spigots fitted. Hard Z-support.

**Application** To clamp workpieces and gauges.

**Please note** Holes to be drilled as required.

### ER-018570 UPC pallet Alu R50 320 x 320 40 eloxed

### ER-016003 UPC pallet Alu R50 320 x 320 x 40

**Version** Aluminum with 50mm grid. Centering segments and chucking spigots fitted. Hard Z-support.

**Application** Basis for gauges and workpieces.

**Info** Pattern borehole  $\varnothing$  12F7, M12 thread.

**Please note** The elox version is not suited for use in EDM machines.

### ER-022898 UPC pallet ALU diecast

### ER-022896 UPC pallet ALU diecast S

**Version** Aluminum with 50mm grid. Chucking spigot fitted. Handles integrated. Steel Z-support.

**Application** To clamp workpieces and gauges.

**Please note** ER-022898: centering segment integrated in aluminum (repeatability: 0.005 mm)  
ER-022896: with steel centering segment fitted (repeatability: 0.002 mm)

### ER-039444 UPC magnet plate Neomicro

**Version** Magnet plate assembled as a UPC pallet 320 x 320 x 58 mm.

**Application** To clamp workpieces for surface and profile grinding, EDM sinking, and high speed milling.

EROWA®

UPC

# EROWA UPC

## Auxiliary equipment

### ER-024932 UPC centering segments and chucking spigots

- Version** Four segments and chucking spigots for UPC, including bolts.
- Application** To produce special UPC pallets.
- Mounting** With bolts through the pallet from above.
- Note** Easy to assemble on the UPC chuck.

### ER-024562 UPC centering segments and spigots to mount from lower side

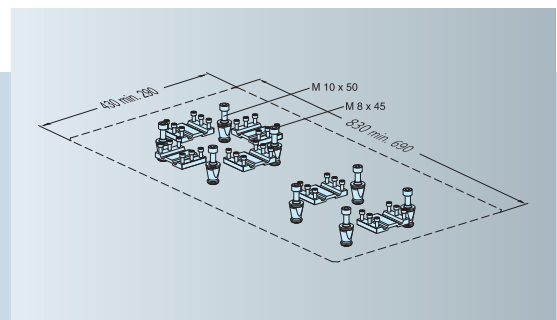

- Version** Four segments and chucking spigots for UPC, including bolts.
- Application** To produce special UPC pallets.
- Mounting** With bolts through the pallet from below.
- Note** Easy to assemble on the PreSet Basic UPC presetting station.

### ER-025820 UPC DUO centering segments

- Version** Six segments and eight chucking spigots for UPC, including bolts.
- Application** To build special UPC pallets.
- Mounting** With bolts from the top through the pallet.
- Note** Assembling on two aligned UPC chucks.

### ER-048377 UPC alignment pallet

- Application** To align angular position and to determine the center of UPC chucks.
- Please note** System parallelism 0.005 mm.  
Borehole concentricity 0.005 mm.

Standardization

**ER-029453 PowerChuck P on UPC pallet**

**Version** Adapter pallet UPC - PowerChuck P.  
**Connections** Laterally on pallet.  
**Application** On machining centers. Operate with air-jet or fixed connection.  
**Note** Manual change into UPC. Possible automatic change into PowerChuck P.

**ER-008988 Manual control unit**

**Version** Manual valve to control all the functions of ITS, ITS Compact CombiChuck, PowerChuck P and UPC: opening/reclamping/cleaning.  
**Application** Operation of chucks on machines.

**ER-039466 Additional valve double**

**Version** For mounting to the manual control units ER-008988 and ER-025893, incl. set of hoses.  
**Application** Operating of two separate chucks with one single control unit.

**ER-016531 UPC air jet connection**

**Version** Valve for the manual operation of UPC ER-016092 and ER-016093 with an air jet.  
**Application** To be fitted on UPC cover.

**ER-018168 UPC P air jet connection**

**Version** Valve for the manual operation of UPC P ER-016841 with an air jet.  
**Application** To be fitted on UPC P cover.

UPC

EROWA®

# EROWA UPC

## Auxiliary equipment

### ER-012444 Cover for UPC

**Version** Aluminum.  
**Application** Cover for UPC.

### ER-012441 Cover set for UPC / ITS

**Version** Aluminum with inserts for  $\varnothing 51$ ,  $\varnothing 72$ ,  $\varnothing 115$ ,  $\varnothing 148$  pallets and for electrode holders for UPC ER-016092.

### ER-018247 Cover for UPC pallet $\varnothing 148$

**Version** Aluminum. Cover for UPC ER-016092.  
**Application** Protects UPC system when  $\varnothing 148$  mm pallets are used in the ITS central chuck.

### ER-016650 UPC sealing kit

**Version** Rubber seal and frame.  
**Application** To seal the UPC P against chips.  
**Mounting** With supplied bolts.  
**Please note** Fits UPC No. ER-016092/ER-016093/ER-016841.

### ER-018718 Clamps for UPC 4 pieces

**Version** High tension steel, mounting accessories not included.  
**Application** To mount UPC chucks to machine tables.  
**Please note** Fits UPC chuck No. ER-016092/ER-016093/ ER-016841.

**ER-015661 Handles for UPC pallets / FrameSet**  
2 pieces

**Version** Aluminum die-casting, set of 2 units.  
**Application** Safe handles for UPC pallets.  
**Mounting** With the enclosed bolts to the prepared threads.

**ER-018817 M12 sealing bolt**  
50 pieces

**Version** Set of 50, including square wrench.  
**Application** Plastic bolts to seal grid boreholes that are not in use.  
 Suitable for ER-018570 and ER-016003.

**ER-022646 Plug**  
50 pieces

**Version** Set of 50.  
**Application** Plastic plug to seal grid boreholes that are not in use.  
 Suitable for ER-022898 and ER-022896.

**ER-036347 GripperLink RCS / EWIS™ Rapid**

**Version** Coupling for UPC pallets, mounting accessories included.  
**Application** Suited for UPC pallets to be used on EROWA handling devices with the RCS coupling system.

**ER-035294 EWIS™ chip with holder / RCS**

**Version** Holder with built-in datacarrier.  
 EWIS chip: read only.  
**Application** To build into RCS coupling, PalletSet W holder and Basic WEDM holder.

# EROWA ProductionChuck 210

The EROWA ProductionChuck 210 ingeniously combines the endurance-tested EROWA precision with the flexible operation of a palletizing system such as required by modern parts manufacturing.

- The locking mechanism on the periphery ensures a stable connection between chuck and pallet.
- The  $\varnothing 81$  mm borehole enables material to be run through the center. This is a great advantage when workpieces are machined on lathes and dividing heads.
- All the pallets are indexable  $4 \times 90^\circ$ .
- The system can be operated manually or automatically.
- The system is suitable for the palletizing of workpieces with volumes of up to  $400 \times 400 \times 400$  mm.
- Its round design enables tools with optimal accessibility to workpieces.

## Applications

Milling/Turning

## Handling

## Function

Drilling/Milling

Grinding

Workpieces, fixtures and plates are directly mounted on the PC 210 pallet.

The widely spaced centering system enables the transfer of maximum torque.

The Z-supports are positioned on the far outside, thus accommodating the tilting moment in the best possible way. The Z-supports are automatically cleaned with air. Dynamic pressure is used to check whether a pallet is in place.

Rod material of up to  $\varnothing 81\text{mm}$  can be led directly through the chuck.

The  $\varnothing 81\text{mm}$  boreholes also provides for air, hydraulic and vacuum lines to operate the fixtures that are clamped on pallets.

The self-locking ball lock generates a clamping power of 20,000 N. Compressed air is necessary to open the chuck and to clean the Z-supports.

## Technical data

	<b>ProductionChuck 210</b>
Repeatability	<0.002 mm
Pallet indexation	4 x 90°
Clamping power	20,000 N / 30,000 N
Clamping power (central PowerChuck P)	10,000 N
Generated by	spring power
Opening with compressed air	7.5 bar
Chuck fits directly to:	
– machine tables with T-slots	50, 63, 100 mm
– round tables with T-slots	4 x 90°, 45°

ProductionChuck 210

EROWA®

# EROWA ProductionChuck 210

Palletizing system with central material feed.

The ProductionChuck 210 pallet serves as a workpiece and fixture carrier.

A borehole in the center of the pallet also enables material up to a diameter of 81 mm to be led through the ProductionChuck 210.

The Z-supports are placed as far on the outside that they provide a stable and precise support even for bigger workpieces.

Working space well exploited! 5-side machining in one clamping process thanks to optimal accessibility.

Particularly suitable for use on lathes. The ProductionChuck 210 is the only precision palletizing system with a borehole for central material feed.

Would you like to automate? We will gladly advise you as to how an EROWA handling facility will increase your productivity up to three times.

The RN PC 210 gripper takes workpieces to your machine with safety and precision.

Fixture stability. Access from all sides. Best use of horizontal/vertical milling machines.

Another advantage: the workpiece or the fixture can be fitted directly on the PC pallet 210.

The existing attachment boreholes allow for quick mounting on all well-established machines.

Mixed use of ITS and ProductionChuck 210 pallets.

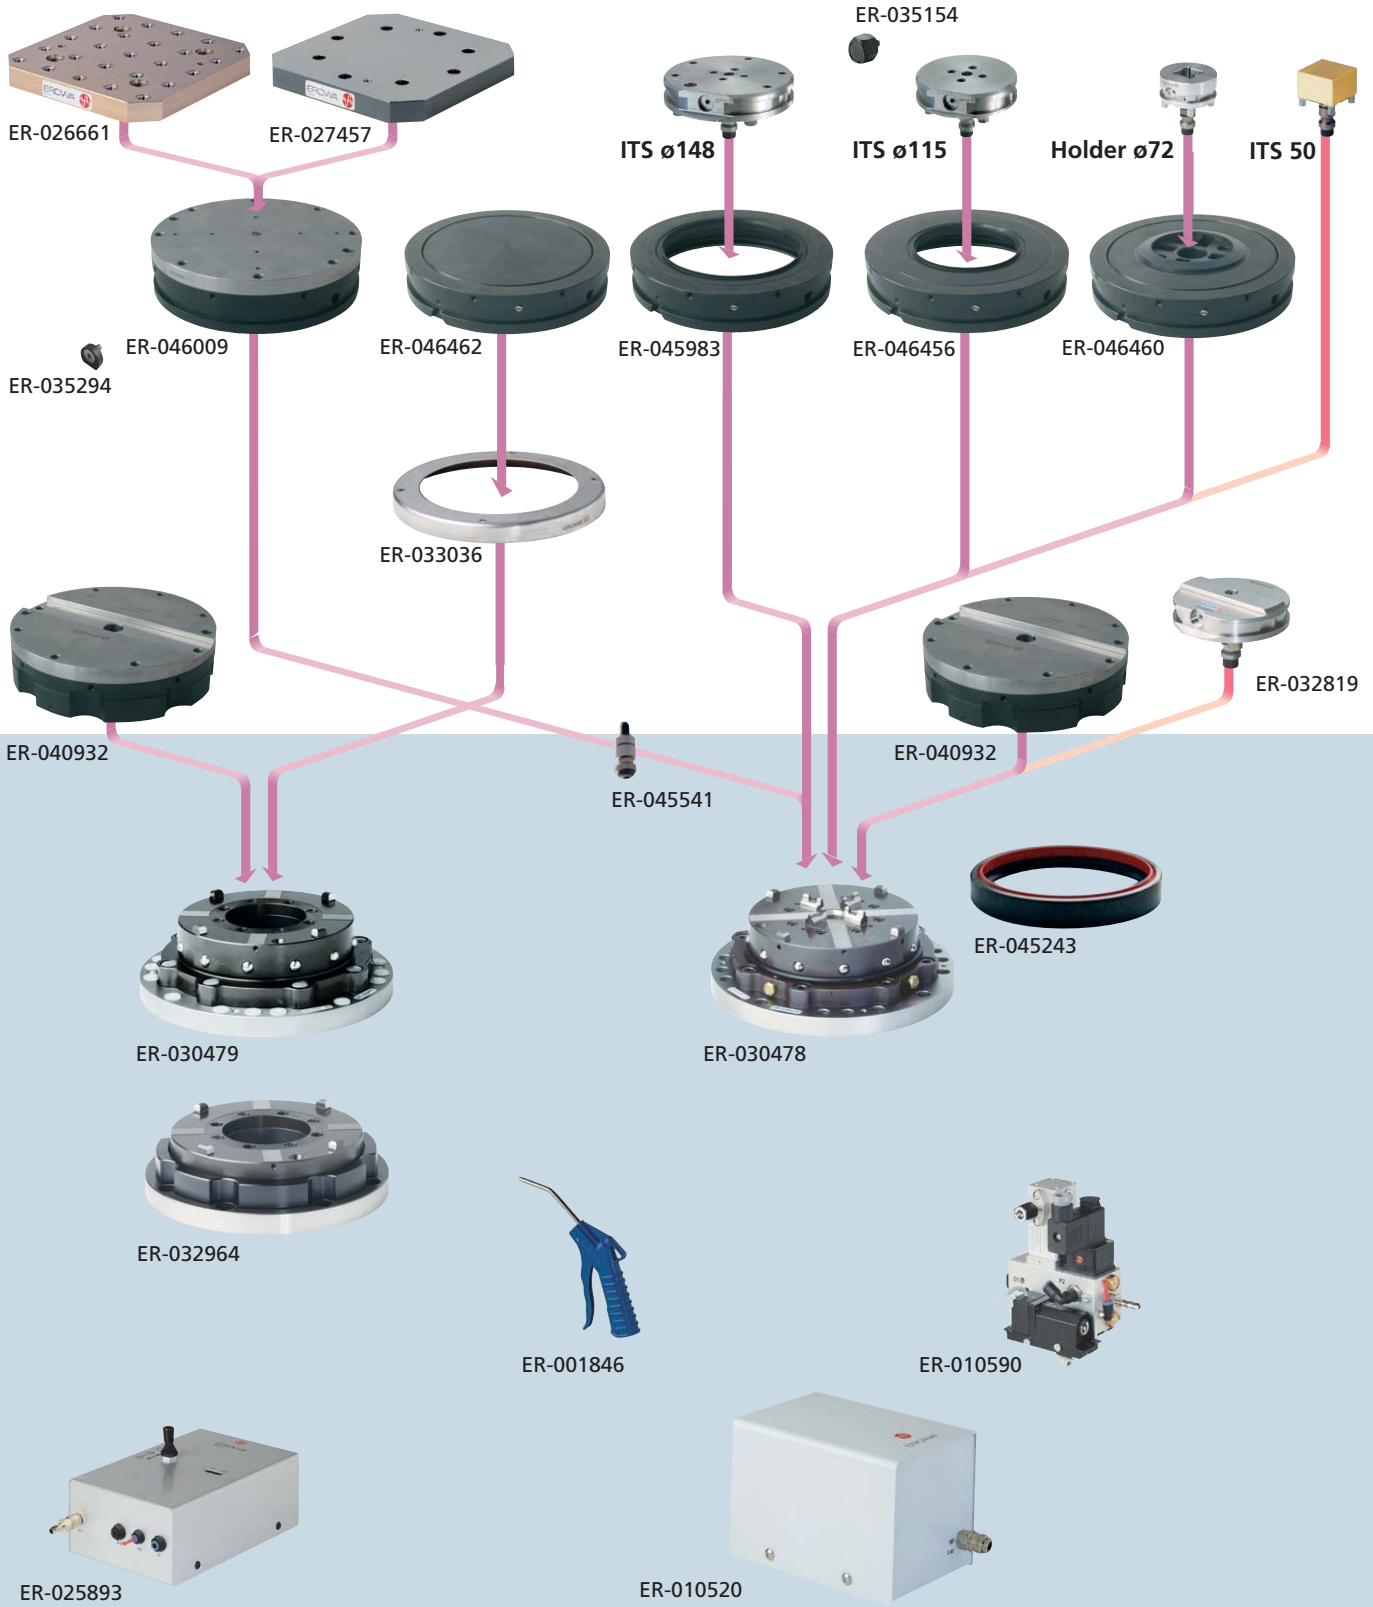

PC 210 is a tooling system that is ideal for rotary transfer machines:  
- quick fixture change,  
- sufficient room to dock on the hydraulic system to operate the fixtures.

#### ER-030479 ProductionChuck 210

- Version** Chuck for high machining forces in chip cutting. Low design. Through-borehole  $\varnothing$  81 mm.
- Connections** Laterally or from below with two lines.
- Operation** With air gun, laterally. With control unit, through the two connections laterally or from below.
- Application** On milling machines, lathes and grinding machines. To clamp pallets PC 210.

#### ER-032964 ProductionChuck 210 without base plate

- Version** Chuck for high machining forces in chip cutting. Low design. Through-borehole  $\varnothing$  81 mm.
- Connections** On milling machines, lathes and grinding machines. To clamp pallets PC 210.
- Operation** 2 air connections: on the sides and from below through customized base plate.
- Application** With air gun or control unit.
- Note** Base plate must be customized.

1  
Standardization

**ER-030478 ProductionChuck 210 Combi**

- Version** Chuck for strong machining forces in chip-cutting operations. PC 210 with integrated PowerChuck P.
- Connections** Laterally or from below with two lines.
- Operation** With air gun, laterally. With control unit, through the two connections laterally or from below.
- Application** On milling machines, lathes, grinding machines and EDM centers. To clamp pallets PC 210, ITS pallets  $\varnothing 148$ ,  $\varnothing 115$  and ITS 50 holders.

**Note** ProductionChuck 210 Combi without base plate on request.

## ProductionChuck 210

### Workpiece carriers

#### ER-046473 Clamping ring RN PC 210

**Version** Steel, hardened.  
**Application** Clamping ring for centering pallet PC 210 and centering pallet PC 210 /  $\varnothing 81$ . Can be automated with gripper PC 210 RN (option).

#### ER-042865 PC Centering pallet 210

**Version** Steel, without clamping ring (option ER-046473).  
**Fitting** 8 x M10 attachment threads and two  $\varnothing 10$  boreholes.  
**Application** To accommodate workpieces, clamping jigs and plates PC 210.

#### ER-042866 PC Centering pallet 210 $\varnothing 81$

**Version** Steel, without clamping ring (option ER-046473).  
**Fitting** 8 x M10 attachment threads and two  $\varnothing 10$  boreholes.  
**Application** To accommodate workpieces, clamping jigs and plates PC 210.

#### ER-046009 Pallet RN PC 210

**Version** Steel. Centering segments integrated.  
**Assembly** 8 x M10 attachment threads and two  $\varnothing 10$  boreholes.  
**Application** To clamp workpieces, clamping jigs and pallets PC 210. Can be automated with gripper RN PC 210 (option).

#### ER-046474 Pallet RN PC 210 $\varnothing 81$

**Version** Steel. Centering segments integrated. Through borehole  $\varnothing 81$  mm.  
**Fitting** 8 x M10 attachment threads and two  $\varnothing 10$  boreholes.  
**Application** To accommodate workpieces, clamping jigs and plates PC 210. Can be automated with gripper RN PC 210 (Option).

**ER-027457 PC 210 plate 250 x 250**

**Version** Steel (not hardened).  
**Application** To clamp workpieces and clamping jigs. Attachment borehole pattern to be drilled according to requirements.  
**Assembly** On pallet PC 210 (8 x M10).

**ER-026661 PC 210 plate 250 x 250 / R50**

**Version** Aluminum, anodized with 50 mm grid boreholes of  $\varnothing$  12 F7 and M12 thread.  
**Application** To clamp workpieces and clamping jigs.  
**Assembly** On pallet PC 210 (4 x M10).  
**Note** Not suitable for application on EDM centres.

**ER-041912 Pallet P  $\varnothing$  148 Inox**

**ER-041924 Pallet Kit P  $\varnothing$  148 Inox 4 pieces**

**Version** Steel, corrosion-resistant. Centering integrated in the pallet.  
**Application** For use on all EROWA PowerChucks P and ProductionChuck 210 Combi. To accommodate workpieces and fixtures in chip-cutting machining processes.  
**Mounting** Through pallet with M8 bolts or through blank with M10 bolts.

**ER-045541 Chucking spigot for PC 210**

**Version** Fixed type, manual. 1 spigot.  
**Application** In pallets PC 210 for chip-cutting machining processes.

## ProductionChuck 210

### Auxiliary Equipment

#### ER-045983 Seal ring holder RN ø 148 PC 210

auto

**Version** Aluminium anodized.

**Application** Prevents penetration of chips and dirt into the ProductionChuck 210 by application of EROWA ITS pallets ø 148. For automatic handling with gripper RN PC 210 (option).

#### ER-046456 Seal ring holder RN ø 115 PC 210

auto

**Version** Aluminium anodized.

**Application** Prevents penetration of chips and dirt into the ProductionChuck 210 by application of EROWA ITS pallets ø 115. For automatic handling with gripper RN PC 210 (option).

#### ER-046460 Seal ring holder RN ø 72 PC 210

auto

**Version** Aluminium anodized.

**Application** Prevents penetration of chips and dirt into the ProductionChuck 210 Combi by application of EROWA ITS pallets ø 72. For automatic handling with gripper RN PC 210 (option).

#### ER-046458 Seal ring holder RN ø 85 PC 210

auto

**Version** Aluminium anodized.

**Application** Prevents penetration of chips and dirt into the ProductionChuck 210 Combi by application of EROWA ITS pallets ø 85. For automatic handling with gripper RN PC 210 (option).

**ER-046462 Cover RN PC 210**

**Version** Aluminium anodized.  
**Application** Prevents penetration of chips and dirt into the ProductionChuck 210 Combi. For automatic handling with gripper RN PC 210 (option).

**ER-040932 Positioning pallet PC 210**

**Version** Alignment pallet with ground alignment rail and central borehole.  
**Application** Alignment of angular position, and determination of the center of PC 210 chucks.

**ER-032819 Alignment pallet  $\varnothing 115$**

**Version** Pallet  $\varnothing 115$  mm, alignment length 110 mm, center borehole  $\varnothing 12$  mm.  
**Application** Alignment of radial, axial and angular position of ITS chucks, PowerChuck P and PC 210 Combi chucks.

**ER-045243 PC 210 Sealing ring**

**Version** Holder with wiper.  
**Application** For use on ProductonChuck 210 Combi. To seal the outer balls if ITS 50 standard electrode holders or other workpiece carriers without PC sealing ring holders PC 210 are used.

ProductionChuck 210

# EROWA

## ProductionChuck 210

### Auxiliary Equipment

#### ER-045249 Wiper for pallet PC 210 ø 81

**Version** Rubber  
**Application** Prevents penetration of chips and dirt into the ProductionChuck 210 in use with pallets PC 210 / ø 81.

#### ER-033036 Covering ring PC 210

**Application** Covering ring for the attachment bolts of the PC 210: ER-030479, ER-030478 (Recommended for application on lathes).

#### ER-035294 EWIS™ chip with holder / RCS

**Version** Holder with built-in datacarrier.  
 EWIS chip: read only.  
**Application** To build into RCS coupling, PalletSet W holder and Basic WEDM holder.

#### ER-035154 EWIS™ chip with holder SW14

**Version** Sleeve fitting with built-in datacarrier.  
 EWIS chip: read only.  
**Application** In any EROWA electrode holder and pallet which have been prepared for it.

Standardization

**ER-025893 Manual control unit with booster**

**Version** Manual valve to control the EROWA chucks:  
Opening/Reclamping/Cleaning.  
**Application** Operation of: EROWA ITS Compact Combi Chuck, ITS,  
UPC, MTS, PC 210 chucks and PowerChuck P.  
**Note** Integrated booster with load ratio 1:2 (up to output  
pressure of 10 bar max.).

**ER-010590 Control unit with monitoring**

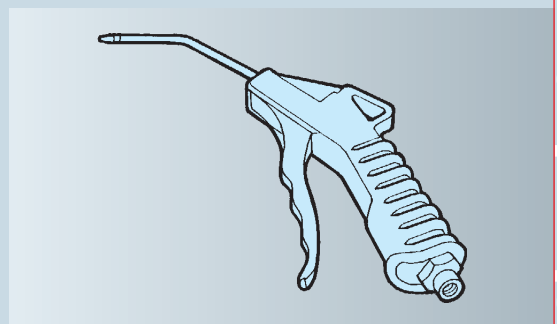

**Version** Electropneumatic valve. Outputs for chucks: opening/  
cleaning/reclamping. 24 V, incl. mounting accessories  
and 3 m connection hose.  
**Application** Operation and monitoring of machine-integrated  
chucks, for instance through the CNC M-function.

**ER-001846 Air jet**

**Version** Plastic, smooth regulation of air flow, connection  
1/4", inside thread.  
**Application** Operation of manual chucks.

**ER-010520 Pressure booster**

**Version** Quick-connect couplings for hose  $\varnothing i = 8$  mm.  
Output pressure: 8 bar. Compression ratio: 1:2  
**Application** On insufficient system pressure and on pressure  
fluctuations.  
**Installation** Integrate in air circuit near application.

ProductionChuck 210

EROWA®

# EROWA PowerChuck P

accessible  
from all  
sides

EROWA PowerChucks are quick and easy to integrate on a wide variety of machining centers.

- Whether affixed to the T-slot table or built into the integrated axis, there is always a good solution.
- Access from all five open sides is particularly important with horizontal machining. The low height of the chuck plays a significant role on smaller machines.
- Operation is manual with an air jet, or with one of the pneumatic control units through the permanently screwed-in connections.
- In automatic operation, the presence and proper position of the pallets in the chuck is monitored (EROWA standard). Support surfaces are automatically cleaned.
- The different variants enable the chuck to be optimally fitted to the existing machine base.

**Clean**  
Through automatic cleaning of  
contact surfaces.

## Applications

Milling / Turning

## Handling

Manual

Loading facility

Robot

## Function

Drilling / Milling

Grinding

EDM sinking

The self-locking ball lock generates a clamping power of 10,000 N; full clamping power is even retained in the case of a pressure failure.

The G-centering plates with their ground centering slots and their 0.7-mm-thick spring plate ensure clean and powerful poitioning.

During the clamping process, the contact surfaces of the supports are cleaned with compressed air.

## Technical data

	<b>PowerChuck P</b>
Pallet size	ø 115 mm, ø 148 mm and ITS 50
Chuck dimensions H x ø	H = 51 mm x ø 156 mm
System height (chuck and pallet)	H = 91 mm
Recommended workpiece size	up to 160 x 160 x 250 mm
Repeatability	0.002 mm
Indexing	4 x 90°
Clamping power	10,000 N
Generated by	springs
Release	compressed air, min. 6 bar
Operation	control unit or air jet

powerful,  
flexible,  
universally  
applicable

Manufacturing is virtually inconceivable anymore without PowerChucks. Whether on milling or drilling machines, whether on profile-grinding or surface-grinding machines, whether on spindles of dividing heads or lathes: wherever it is, they fit like a glove.

Clamped with  $\mu\text{m}$ -accuracy with one movement of the hand.

Universal combination of EROWA clamping systems with automatic handling.

Prepare, clamp and complete the job.

Flexible and automatic loading of a machine tool with an EROWA handling unit. The ratio of productive hours is considerably increased.

We would like to advise you. Please describe your clamping problem to us.

Practical clamping elements for universal operation.

Automatic loading of the chuck with sealing rings for every EROWA workpiece holder

Horizontal chuck on a dividing head.

Grinding or milling: EROWA PowerChucks are just right.

### Workpiece carriers

**ER-015777 Pallet ø 148 G**

**ER-032732 Pallet Kit G ø 148**  
4 pieces

**Version** Standard type, ground centering plates.  
**Application** To accommodate workpieces and fixtures in chip-cutting machining processes.  
**Mounting** Through pallet with M8 bolts or through blank with M10 bolts.

**ER-015899 Pallet ø 148 G R25**

**ER-033053 Pallet Kit ø 148 G R25**  
4 pieces

**Version** Steel, nitride coated, with borehole pattern 25, ø 10 F7, thread M10.  
**Application** To accommodate EROWA ClampSet Base 220 or specially constructed fixtures and gauges.

**ER-015042 Pallet ø 148 MS ALU R25**

**ER-033051 Pallet Kit ø 148 MS ALU R25**  
4 pieces

**Version** Body of casted aluminum with borehole pattern 25, ø 10 F7, thread M10.  
**Application** Palletizing of workpieces and electrodes, mounting of fixtures and ClampSet Base 220.  
**Mounting** Through pallet with M8 bolts or through blank with M10 bolts.

**ER-041912 Pallet P ø 148 Inox**

**ER-041924 Pallet Kit P ø 148 Inox**  
4 pieces

**Version** Steel, corrosion-resistant. Centering integrated in the pallet.  
**Application** For use on all EROWA PowerChucks P and Production-Chuck 210 Combi. To accommodate workpieces and fixtures in chip-cutting machining processes.  
**Mounting** Through pallet with M8 bolts or through blank with M10 bolts.

**ER-038189 ITS magnetic clamping plate permanent**  
250 x 150 x 46

**Version** Magnetic clamping plate of steel with M8 attachment boreholes for ITS Pallet  $\varnothing$  148.  
**Application** To clamp workpieces for surface and profile grinding, WEDM and high-frequency milling.

**ER-036658 Centering plate G Inox**  
5 pieces

**Version** Ground including 8 supporting feet M8 per plate.  
**Application** For workpieces, jigs and fixtures in chip-removal machining.  
**Mounting** According to accompanying fitting instructions.

**ER-022250 Adapter pallet ITS 50 /  $\varnothing$  148**

**Version** ITS system size 100.  
**Application** Lock with central M 10 locking bolt. To accommodate ITS Electrode holders system 50. Lock with central M10 locking bolt. For automatic handling.

More workpiece carriers for the EROWA PowerChuck P palletizing system you will find on page: 112.

**Version** Rust-resistant steel.  
**Application** Prevents penetration of chips and dirt into the PowerChuck P by application of EROWA pallets PM85.

## ER-016142 Seal ring holder ø 115

**Version** Aluminium anodized.  
**Application** Prevents penetration of chips and dirt into the PowerChuck P by application of EROWA ITS pallets ø 115.

## ER-055751 Sealing ring for pallet ø115 PowerChuck P

**Version** Rust-resistant steel.  
**Application** Prevents penetration of chips and dirt into the PowerChuck P by application of EROWA ITS pallets ø 115.

**ER-016131 Seal nipple holder ø 148 for sealingring with sealing lip**

**Version** Steel black oxide coated.  
**Application** Prevents penetration of chips and dirt into the PowerChuck P by application of EROWA ITS pallets ø 148.

**ER-054219 Sealing ring for pallet ø148 PowerChuck P**

**Version** Rust-resistant steel.  
**Application** Prevents penetration of chips and dirt into the PowerChuck P by application of EROWA ITS pallets ø 148.

**ER-008972 Cover for PowerChuck P**

**Version** Aluminum. Without centering plate and supports.  
**Application** Protects the PowerChuck P from chips and cooling water when not in use.

**ER-055763 Cover to PowerChuck P**

**Version** Rust-resistant steel.  
**Application** Prevents penetration of chips and dirt into the PowerChuck P. For automatic handling.

PowerChuck P

# EROWA ClampSet

EROWA ClampSet is the modular system for clamping workpieces. It is universally applicable throughout the EROWA Manufacturing Concept.

- The ClampSet offers enormous flexibility. A great number of various precise clamping elements are available.
- It serves to clamp both machined workpieces and blanks.
- A variety of jaws enable many different workpiece forms to be clamped.
- A maximum clamping range of 225 mm also provides room for large workpieces.
- Workpieces are set up and preset outside the machine; this makes for an optimal use of time and cuts costs.
- Once the ClampSet has been palletized, it is immediately suitable for the automatic loading of machines.

## Applications

Milling/Turning

Drilling/Milling

Grinding

EDM sinking

## Handling

Manual

Loading facility

Robot

## Function

**ClampSet Block N:**  
the pull-down jaw in combination with the ClampSet Standard Block offers the ideal pull-down effect.

**ClampSet Stop:**  
the lateral stop can be attached to any ClampSet jaw.

## Technical data

	ClampSet Base 220	ClampSet Base 320
Clamping range	max. 126 mm	max. 225 mm
Material	steel, hardened, ground	

# EROWA ClampSet – modular, flexible, precise

Whether it's drilling, milling, grinding or EDM, ClampSet will reduce set-up times.

The Standard Block with 4 ball pressure bolts at an angle of 3° to the base surface for an optimal pull-down function.

Base 220, ClampSet Standard Block and ClampSet Block F (hard jaw) to clamp blanks. For ClampSet Block S (soft jaw), see page 90.

**Flexible**  
For vertical and horizontal use.

Support N; to clamp flat, low workpieces.

Base 220, ClampSet Slide, Block F and Support N (in two parts). For additional workpiece supports, see pages 90/91.

**Universal**  
Adapted elements for use throughout the EROWA Manufacturing Concept.

The multiple fixture on Cube and the UPC pallet for horizontal machining.

ClampSet Slide; the precision clamping jaw for multiple clamping.

Base 220, ClampSet Slide and Block F to clamp machined parts (grinding vise).

1  
Standardization

**Automatic**  
To load machine tools automati-  
cally.

Base 220, ClampSet Slide and prismatic jaw to clamp various cylindrical parts, both horizontally and vertically.

ClampSet vise on ITS pallet. Positioning to  $\mu$ -accuracy and ready for use within seconds.

A fixture with Base 220 on an ITS pallet  $\varnothing$  148 mm.

Base 320 with 3 ClampSet Standard Blocks and Block F for multiple fixtures.

## Application ClampSet Slide/Jaw

ER-015995	ClampSet Slide
ER-023325	ClampSet Jaw
ER-015998	ClampSet Block F
ER-016010	ClampSet Base 220
ER-016007	ClampSet Base 320

Clamping power in kg  $\pm 10\%$   
at a torque of

	5 Nm	10 Nm	15 Nm	20 Nm
ClampSet Slide	250	500	750	1000
ClampSet Jaw	300	600	900	1200

**Modular**  
Different clamping jaws for many  
workpiece shapes.

EROWA®

# EROWA ClampSet

## ER-016010 ClampSet Base 220

**Version** Steel, hardened, ground. Clamping element carrier with 3 mm positioning grid.

**Application** On ITS pallets 148 with 25 mm grid and on UPC pallets with 50 mm grid, as a base for the various ClampSet clamping jaws.

**Mounting** On all EROWA grid pallets.  
**Note** R40 subject to consultation.

## ER-016007 ClampSet Base 320

**Version** Steel, hardened, ground. Clamping element carrier with 3 mm positioning grid.

**Application** On UPC grid pallets R50 or Cube R50, as a base for the various ClampSet clamping jaws.

**Mounting** On EROWA UPC and MTS grid pallets R50 or Cube R50.

**Note** R40 subject to consultation.

**ER-023325 ClampSet Jaw**

**Version** Steel, hardened, including tenon block for attachment.

**Application** To clamp workpieces with machined surfaces.

**Mounting** On ClampSet Base 320 or 220 with tenon block supplied.

**Note** Favorably priced alternative to the Clamp Set Slide. The fixed stop side enables multiple fixtures.

**ER-015995 ClampSet Slide**

**Version** Steel, hardened, incl. T-nut for fixation.

**Application** To clamp workpieces with machined sides.

**Mounting** On ClampSet Base 320 or 220 with the T-nut supplied.

**Note** Fixed stop side for the multiple fixture of machined workpieces. The precision clamping jaw in the ClampSet system.

**ER-015997 ClampSet standard block M8**

**Version** Steel, hardened, incl. T-nut for attachment.

**Application** The blanks are clamped with the M8 stud bolts. A clamping jaw in EROWA's modular vise system.

**Mounting** On ClampSet Base 320 or 220 with the T-nut supplied.

**Note** The fixed stop side allows for multiple fixtures.

**ER-015998 ClampSet Block F**

**Version** Steel, hardened, incl. T-nut for attachment.

**Application** Hard jaw in EROWA's modular vise system.

**Mounting** On ClampSet 320 or 220 with the T-nut supplied.

# EROWA ClampSet

## ER-015999 ClampSet Block S steel soft

**Version** Steel, soft, incl. T-nut for attachment.  
**Application** The soft block serves to produce a workpiece-specific hard jaw.  
**Mounting** On ClampSet 320 or 220 with the T-nut supplied.

## ER-015996 ClampSet block N Pull-down jaw

**Version** Steel, hardened, incl. T-nut for attachment.  
**Application** To clamp blanks. Hard jaw in EROWA's modular vise system.  
**Mounting** On ClampSet 320 or 220 with the T-nut supplied.  
**Note** Pull-down function when clamping.

## ER-016001 ClampSet Block Prisma

**Version** Steel, hardened, incl. T-nut for attachment.  
**Application** To clamp round parts. Hard jaw in EROWA's modular vise system.  
**Mounting** On ClampSet 320 or 220 with the T-nut supplied.

## ER-015870 ClampSet Stop adjustable stop

**Version** Adjustable stop, steel.  
**Application** Lateral stop for every ClampSet element.  
**Mounting** Laterally to the relevant ClampSet block with the bolts supplied.

## ER-016275 ClampSet Support Kit 14mm

**Version** Ground support (1 pair), 14 mm high, with four bolts.  
**Application** Support for the height positioning of workpieces.  
**Mounting** To the ClampSet Standard Block with the bolts supplied.

**ER-015880 ClampSet Support N**  
1 pair

**Version** Steel, hardened, ground, with bolts.  
**Application** Pull-down element for ClampSet Slide and ClampSet Block. To clamp workpieces of aluminum and non-ferrous heavy metal.  
**Mounting** To ClampSet Slide and ClampSet Block with the bolts supplied.  
**Note** Also suitable for clamping workpieces of low height.

**ER-015888 ClampSet Support Kit, 7 parts**

**Version** Set of 7 ground supports; 12, 14, 16, 18, 20, 22 and 24 mm high; with bolts.  
**Application** Supports for the height positioning of workpieces.  
**Mounting** To the various ClampSet Blocks with the bolts supplied.

**ER-016274 ClampSet Support Kit offset, 7 parts**

**Version** Set of 7 ground, offset supports, with bolts.  
**Application** Supports for the height positioning of workpieces.  
**Mounting** To ClampSet Slide with the bolts supplied.

**ER-024681 ClampSet Support Set**

**Version** Set of 8 ground supports, heights 10, 14, 18 and 22 mm.  
**Application** Support for the height positioning of workpieces.  
**Mounting** The supports are clamped on the base from above.

ClampSet

# EROWA ITS chuck – simple, practical, good

EROWA's ITS chuck operates on a principle that is as simple as it is ingenious. It holds both tools and workpieces with equal precision and with a high degree of repeatability. Its applications are so numerous that it forms the basis for a well thought-out modular tooling system.

- Tens of thousands of ITS chucks are in daily operation worldwide - with their guaranteed 2- $\mu$ m accuracy and with a reliability they have earned for themselves in practical working application.
- Integrated on milling, grinding and drilling machines, on EDM sinking and WEDM centers or on measuring and presetting stations, ITS helps us week after week to achieve a profitable use of production time.

The two pictures illustrate the ITS patent. After a rough precentering process, the reference position is only reached when the centering plate is flexed. Together with the contact points, this flexing action creates the stability of the frictional connection. This is how positioning accuracy is created between the flexible centering plate and the rigid centering prisms.

**ITS The  original.**

Nothing is copied as fast as a pioneering invention. But then a copy always lags behind the times. It won't be different with the next innovative idea. We will ensure that you continue to do well if you invest your money in originals. In originals by EROWA.

**Applications**

Milling / turning

**Handling**

Manual

Loading facility

Robot

**Function**

Experience shows that precision and dirt are do not go hand in hand. This is why the contact points of the support feet are cleaned with compressed air at the very moment of clamping. This also functions when the chuck is submerged in liquid.

The reliable clamping mechanism with the self-locking ball lock generates a clamping power of up to 7,000 N (NSF) and does not unlock even if the pressure fails.

Drilling / milling

Grinding

EDM sinking

The second important effect: the flexing plate wipes off any dirt. Centering plate and prism only touch on one line. A small contact area also reduces the possibility of interference by chips and dirt particles.

**Technical data**

	ITS chuck, pneumatic
System sizes	50 and 100
Repeatability	0.002 mm
Indexing	4 x 90°
Clamping power	2,500 N (NSF chuck: 7,000 N)
Recommended workpiece sizes	up to 140 x 140 x 140 mm
Generated by	springs (+ 6 bar NSF chucks)
Opening	compressed air min. 6 bar
Operation	air jet, valve, manual control unit

# EROWA ITS chucks – a suitable version for each job

The applications of ITS chucks are as numerous as the jobs to be done in precision mechanics and in tool and mold manufacturing. This is why we offer such a diverse variety of chucks.

Ideally suitable for milling, drilling, grinding, turning . . .

**Save time**  
Machine changes and in-process-control without loss of time thanks to fixed reference position.

The centering plate is fitted directly on to the electrode or the workpiece...  
...which is then transferred to the ITS chuck at once!

Exploit marginal and night hours by loading EDM machines automatically: ITS provides you with the necessary prerequisites.

Checking outside the machine: quick, simple, precise.

ITS chucks: Perfectly suited for integration in special fixtures.

Loading machines with preset parts will increase your capacity.

Precision and reliability in the tank and on the quill of the EDM machine.

### ER-012299 Rapid-action chuck NSF on plate

**Version** NSF = increased clamping power up to 7000 N.  
**Connections** Pneumatic valves on side.  
**Application** Electrode fabrication, e.g. on magnetic plate.  
**Note** To hold pallets  $\varnothing 115 / \varnothing 148$ , electrode holders, with the exception of pallets with a P-profile.

### ER-012297 Rapid-action chuck NSF on block

**Version** NSF = increased clamping power up to 7000 N.  
**Connections** Pneumatic valves on side.  
**Application** Electrode fabrication. For use in horizontal and vertical positions.  
**Note** To hold pallets  $\varnothing 115 / \varnothing 148$ , electrode holders, with the exception of pallets with a P-profile.

### ER-007612 Rapid-action chuck NSF on angle plate

**Version** Standard type on type G angle plate.  
 NFS = increased clamping power up to 7000 N.  
**Connections** Pneumatic valves on the side, flushing through chucking spigot.  
**Application** To produce electrodes, and on EDM quill.  
**Note** To hold pallets  $\varnothing 115 / \varnothing 148$ , electrode holders, with the exception of pallets with a P-profile.

## ITS chucks pneumatic, table, able to automate, INOX

### ER-043123 ITS chuck 100 P Inox without base plate

**Version** Steel, hardened, INOX.  
**Clamping power** 5000 N.  
**Connections** At the rear, with two lines.  
**Operation** With control unit  
**Note** To hold pallets  $\varnothing 115 / \varnothing 148$ , electrode holders and pallets PM56, PM60 and PM85 Precise.

### ER-043124 ITS chuck 100 P Inox 102 x 102

**Version** Steel, hardened, INOX.  
**Clamping power** 5000 N.  
**Connections** On the side or at the rear, with two lines.  
**Operation** With control unit or with air gun.  
**Application** To hold pallets  $\varnothing 115 / \varnothing 148$ , electrode holders and pallets PM56, PM60 and PM85 Precise.

### ER-047743 ITS chuck 100 P Inox 118 x 118

**Version** Steel, hardened, stainless  
**Clamping power** 5,000 N  
**Connections** Laterally or at the rear, with two lines.  
**Operation** With control unit or with compressed-air gun.  
**Application** To hold pallets  $\varnothing 115 / \varnothing 148$ , electrode holders and pallets PM56, PM60 and PM85 Precise.

### ER-048519 ITS chuck 50 Inox

- Version** System size 50, corrosion-resistant.
- Clamping power** 2800 N.
- To be fitted** With 8 M5 bolts from the front.
- Application** For fixtures produced by users themselves.
- Note** Chuck can be operated manually or automatically. Air connections laterally or at the rear.

### ER-055294 ITS Chuck 50 INOX with base platet 80 x 120

- Version** System size 50, corrosion-resistant.
- Clamping power** 2800 N.
- Attachment** With 4xM8 bolts from the front.
- Application** On milling and grinding machines and on EDM/WEDM centers.
- Note** Chuck can be operated manually or automatically. Pneumatic connections on the side of the chuck.

### ER-011803 Chuck 50 RSA without base plate

- Version** Chuck 50 RSA, automatic with pneumatic valve.
- Clamping power** 2800 N.
- Attachment** With 4 M6 bolts from the rear.
- Application** ITS basis for the manual loading of ITS elements or for automatic operation.

### ER-008186 Chuck 50 RSA with base plate 10 x 55.5 x 85

- Version** Chuck 50 RSA, automatic, with pneumatic connection.
- Clamping power** 2800 N.
- Application** ITS basis for the manual loading of ITS elements or for automatic operation.

Standardization

**ER-046046** Chip guard  $\varnothing$  115  
to QuickChuck 100 P / ITS Chuck 100 P

**Version** Aluminum, for pallets  $\varnothing$  115 mm.  
**Application** Seals QuickChuck 100 P / ITS Chuck 100 P in use with pallets  $\varnothing$  115 mm against liquid and chips. Can be combined with ER-029313.

**ER-046044** Chip guard  $\varnothing$  148  
for QuickChuck 100 P / ITS Chuck 100 P

**Version** Aluminum, for pallets  $\varnothing$  148 mm.  
**Application** Seals QuickChuck 100 P / ITS Chuck 100 P in use with pallets  $\varnothing$  148 mm against liquid and chips. Can be combined with ER-029313.

**ER-029313** Chip Guard  
for QuickChuck 100 P

**Version** Aluminum.  
**Application** Seals the locking mechanism of the QuickChuck 100 P against the penetration of liquids and chips.

**ER-007618** Cover for rapid-action chuck

**Version** Aluminum, without supports and centering plate.  
**Application** To protect rapid-action chucks from dirt.

# EROWA ITS System carriers

## Standard electrode holders, centering plates and pallets

### The components

Universality starts with the system carrier. Whether you use completely prepared electrode holders, pallets or the very economically priced centering plates, they all depend on the application. However, the workpiece will be ready for universal and flexible use in any case.

ITS

## ITS centering plates

The centering plates are the most cost-effective base for clamping electrodes. They are mounted directly onto the blanks. This way, jigs and fixtures are also ITS compatible. The hole pattern for mounting is simply drilled into the blank with a drilling template, or by means of an NC program.

Technical data	ITS centering plates
Material	corrosion-resistant
System accuracy in chuck	0.002 mm
<b>Versions:</b>	
Centering plate 50	small electrode weights
Centering plate 100 M8	workpieces and electrodes
Centering plate G	workpieces, jigs and fixtures for chip-removal machining
Handling	with EROWA Handlingsystems or electrode changer.

<b>ER-009214</b>	<b>Centering plate 50</b> 50 pieces
<b>ER-036751</b>	<b>Centering plate 50</b> Set of 5 units

**Version** Corrosion-resistant, including 4 supporting feet each.

**Application** Small electrode weights.

**Mounting** Mounted directly on plane surface of blank.

<b>ER-011599</b>	<b>Centering plate 100 M8</b> 10 pieces
<b>ER-050195</b>	<b>Centering plate 100 M8</b> 1 unit

**Version** Corrosion-resistant, including 4 supporting feet M8 and 4 x M5 screws per plate.

**Application** Workpieces and electrodes.

**Mounting** Mounted directly on of blank plane surface of blank.

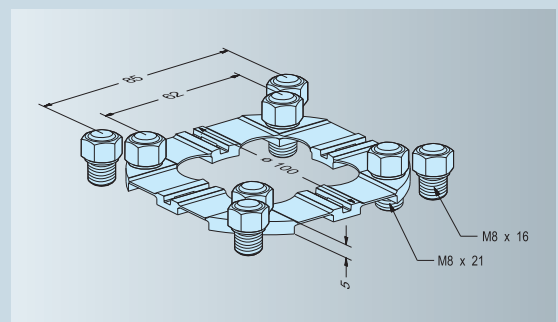

<b>ER-036658</b>	<b>Centering plate G Inox</b> 5 pieces
<b>ER-036657</b>	<b>Centering plate G Inox</b> 1 unit

**Version** Ground, including 8 supporting feet M8.

**Application** For workpieces, jigs and fixtures in chip-removal machining.

**Fixation of blank** According to accompanying fitting instructions.

## ITS standard electrode holders

Standard electrode holders are used to contain electrodes for the entire machining cycle and for storage. Their economical unit price enables users to stock such holders in large quantities. The standard holders are supplied without chucking spigots.

Technical data	ITS standard electrode holders
Material	body: brass centering plate: corrosion-resistant
System accuracy in chuck	0.002 mm
Recommended max. weight with electrode	20 kg / 44 lbs
Handling	with EROWA Handlingsystems or electrode changer.

### ER-009226 Uniblank 12 pieces

**Version** Set of 12 units, fitted without machining of body.  
**Application** To mount electrodes and workpieces of various shapes.  
**Mounting** As required.

### ER-010596 Uniblank EWIS™ 12 pieces

**Version** Set of 12 units, prepared for the installation of the code carrier. Order EWIS™ chip, ER-035154 separately!

ITS

## ITS standard electrode holders

### ER-009222 Prisround 12 pieces

**Version** Set of 12 units, square 26.5 mm milled, including 2 setscrews for each unit.

**Application** To mount electrodes and workpieces with a base surface of more than 25 mm.

**Mounting** Insert and tighten setscrews. If necessary, center with spacer plate ER-010532.

### ER-010063 Prisround EWIS™ 12 pieces

**Version** Set of 12 units, prepared for the installation of the code carrier. Order EWIS™ chip, ER-035154 separately!

### ER-010793 Uniholder 12 pieces

**Version** Set of 12 units, groove 20 mm faced, including 2 setscrews for each unit.

**Application** To mount electrodes and workpieces with shaft sizes of up to 20 mm.

**Mounting** Insert and tighten setscrews. If necessary, center with spacer plate ER-010532.

### ER-009223 Uniholder EWIS™ 12 pieces

**Version** Set of 12 units, prepared for the installation of the code carrier. Order EWIS™ chip, ER-035154 separately!

1  
Standardization

**ER-009219 Uniplate**  
12 pieces

**Version** Set of 12 units, surface 51 x 51 mm faced, including 2 x M6 bolts for each unit.  
**Application** To mount electrodes and workpieces with a base surface of more than 50 mm.  
**To fit blank** With 2 x M6 bolts into the base surface.

**ER-010644 Uniplate EWIS™**  
12 pieces

**Version** Set of 12 units, prepared for the installation of the code carrier. Order EWIS™ chip, ER-035154 separately!

**ER-010627 Uniplate Alu 80 x 80**  
4 pieces

**Version** Set of 4 units, aluminum, system size 100, with M8 supports.  
**Application** To mount electrodes and workpieces with a base surface of more than 70 mm.  
**Mounting** With 4 x M6 bolts into the base surface.

**ER-010532 Spacer plate**  
300 pieces

**Version** 6 x 50 plates. Corrosion-resistant. Thicknesses from 0.5 mm to 5 mm.  
**Application** Centering of blanks in electrode holders.

ITS

EROWA®

# ITS standard electrode holders

**ER-013913 System stand  
10 pieces**

**Version** Plastic, set of 10.

**Application** As a rack for four electrode holders 50 or a pallet  
ø 115/148 mm.

**Please note** System racks can be stuck together without any gaps,  
e. g. to be stored in drawers.

**ER-011591 System stand 50 12-fold  
10 pieces**

**Version** Set of 10 styrene stands.

**Application** Storage and transport of electrode holders system  
size 50.

# EROWA

## Holder ø 72

EROWA ITS system carriers

The EROWA holders ø 72 in combination with covers provides maximum protection against the contamination of table chucks. The holders are the optimal solution for automatic production.

Technical data	EROWA Holder ø 72
Material	steel, corrosion-resistant
System accuracy, chuck	0.002 mm
Recommended max. weight with electrode	20 kg / 44 lbs
Handling	with EROWA handling systems or electrode changers.

### ER-035210 Uniblack ø 72 6 pieces

- Version** Set of 6 units, system size ITS 50. Without chucking spigots.
- Application** To mount electrodes and workpieces of various shapes.
- Mounting** Attachment boreholes to be drilled according to requirements.

### ER-035209 Prisround ø 72 6 pieces

- Version** Set of 6 units, system size ITS 50. Without chucking spigots.
- Application** To mount electrodes and workpieces with shafts of up to square 25 mm.

ITS

EROWA®

# EROWA

## Holder $\varnothing$ 72

### ER-035211 Uniholder $\varnothing$ 72 6 pieces

**Version** Set of 6 units, system size ITS 50.  
Without chucking spigots.

**Application** To mount electrodes and workpieces with shaft  
of up to 20 mm.

### ER-035212 Uniplate $\varnothing$ 72 6 pieces

**Version** Set of 6 units, includes 12 PinLock locking pins.  
System size ITS 50, without chucking spigots.

**Application** To mount electrodes and workpieces with surface  
more than square 40 x 40 mm or  $\varnothing$  50 mm.

**Mounting** With two PinLock locking pins.

### ER-035114 Blank holder $\varnothing$ 10 / $\varnothing$ 72 6 pieces

**Version** Set of 6 units, system size ITS 50.  
Without chucking spigots.

**Application** To clamp cylindrical parts with  $\varnothing$  10 mm.

### ER-035097 Blank holder $\varnothing$ 20 / $\varnothing$ 72 6 pieces

**Version** Set of 6 units, system size ITS 50.  
Without chucking spigots.

**Application** To clamp cylindrical parts with  $\varnothing$  20 mm.

**ER-035117 Blank holder  $\varnothing$  72 without borehole**  
**6 pieces**

- Version** Set of 6 units, system size ITS 50.  
Without chucking spigots.
- Application** To clamp cylindrical parts.
- Mounting** Attachment borehole up to max.  $\varnothing$  12 mm to be drilled according to requirements.

**ER-035297 Collet chuck holder  $\varnothing$  72**  
**1 piece**

- Version** One collet chuck holder with chucking spigot.  
System size ITS 50.
- Application** To clamp cylindrical parts.  
Clamping range  $\varnothing$  2 mm -  $\varnothing$  20 mm.
- Please note** Order collet chucks separately.

## ITS precision pallets

ITS precision pallets are workpiece and electrode carriers. The pallets are prepared for automatic handling and to accommodate EWIS chips. Marginal and night hours are thus put to productive use.

Technical data	ITS precision pallets
Material	corrosion-resistant
System accuracy in chuck	0.002 mm
Run-out	< 0.01 mm
<b>Variants</b>	
Pallets MS	die cut centering plates
Pallets G	ground centering plates
Pallets P	Centering integrated in the pallet
Borehole pattern	standard, can be supplemented
Handling	with EROWA Handlingsystems
Unit supplied	pallet including chucking spigot

**ER-008519 Pallet ø 115 MS**  
**ER-032730 Pallet Kit ø 115 MS**  
**4 pieces**

**Version** Standard type, punched centering plates.  
**Application** For electrodes and workpieces in EDM.  
**Mounting** Through pallet with 4xM8 bolts or through blank with 4xM10 bolts.

**ER-008517 Pallet G ø 115**  
**ER-032729 Pallet Kit G ø 115**  
**4 pieces**

**Version** Standard type, ground centering plates.  
**Application** For electrodes and workpieces in EDM.  
**Mounting** Through pallet with 4xM8 bolts or through blank with 4xM10 bolts.

**ER-015776 Pallet ø 148 MS**  
**ER-032731 Pallet Kit ø 148 MS**  
**4 pieces**

**Version** Standard type, punched centering plates.  
**Application** For electrodes and workpieces, and for the construction of fixtures.  
**Mounting** Through pallet with M8 bolts or through blank with M10 bolts.

**ER-015777 Pallet ø 148 G**  
**ER-032732 Pallet Kit G ø 148**  
**4 pieces**

**Version** Standard type, ground centering plates.  
**Application** To accommodate workpieces and fixtures in chip-cutting machining processes.  
**Mounting** Through pallet with M8 bolts or through blank with M10 bolts.

**ER-015042 Pallet ø 148 MS ALU R25**  
**ER-033051 Pallet Kit ø 148 MS ALU R25**  
**4 pieces**

**Version** Body of casted aluminum with borehole pattern 25, ø 10 F7, thread M10.  
**Application** Palletizing of workpieces and electrodes, mounting of fixtures and ClampSet Base 220.  
**Mounting** Through pallet with M8 bolts or through blank with M10 bolts.

**ER-015899 Pallet ø 148 G R25**  
**ER-033053 Pallet Kit ø 148 G R25**  
**4 pieces**

**Version** Steel, nitride coated, with borehole pattern 25, ø 10 F7, thread M10.  
**Application** To accommodate EROWA ClampSet Base 220 or specially constructed fixtures and gauges.

**ER-032699 Pallet ø 148 G**  
**ER-033048 Pallet Kit ø 148 G**  
**4 pieces**

**Version** Without boreholders apart from center borehole and borehole for reference bolt.  
**Application** For workpieces machined in chip-cutting machining.  
**Mounting** According to your preference.

## ITS precision pallets

**ER-041912 Pallet P ø 148 Inox**

**ER-041924 Pallet Kit P ø 148 Inox**  
4 pieces

**Version** Steel, corrosion-resistant. Centering integrated in the pallet.

**Application** For use on all EROWA PowerChucks P and Production-Chuck 210 Combi. To accommodate workpieces and fixtures in chip-cutting machining processes.

**Mounting** Through pallet with M8 bolts or through blank with M10 bolts.

**ER-022250 Adapter pallet ITS 50 / ø 148**

**Version** ITS system size 100.

Lock with central M 10 locking bolt.

**Application** To accommodate ITS Electrode holders system 50. Lock with central M10 locking bolt. For automatic handling.

**ER-046221 Reference bolt**  
10 pieces

**Version** Set of 10 bolts. Bolts have been reworked.

**Application** On pallets ø 148 mm: for positional orientation in power chucks and Robot magazines.

**ER-035154 EWIS™ chip with holder SW14**

**Version** Sleeve fitting with built-in datacarrier. EWIS chip: read only.

**Application** In any EROWA electrode holder and pallet which have been prepared for it.

# EROWA ITS

## Chucking spigots

The various versions are exactly tailored to individual applications.

**Chucking spigots** are screwed into the holder or into the pallet for the **machining cycle** only. Since it has no influence on the reference position, it is removed for the purpose of **space-**

**saving storage** and only screwed in again when the holder or pallet is used next time.

<b>Technical data</b>	<b>ITS Chucking spigot</b>
Material	Steel, hardened
Bolt	M10

**ER-010755 Chucking spigot F/M EDM for flushing 20 pieces**

**Version** Fixed type, manual. Bolt with flushing hole. Set of 20 spigots.

**Application** In Electrode Holders. For EDMing and easy machining.

**ER-010742 Chucking spigot F/M production 1 unit**

**ER-051381 Chucking spigot F/M Production 20 pieces**

**Version** Fixed type, manual. Bolt 12.9, without flushing hole.

**Application** In pallets for chip-cutting machining processes.

**ER-007980 Chucking spigot F/A Inox 20 pieces**

**Version** Fixed type, automatic. Bolt stainless, without flushing hole. Set of 20 spigots.

**Application** On all holders used on UnoSet.

**ER-015465 Chucking spigot F/A EDM M10 x 45 for flushing / 20 pieces**

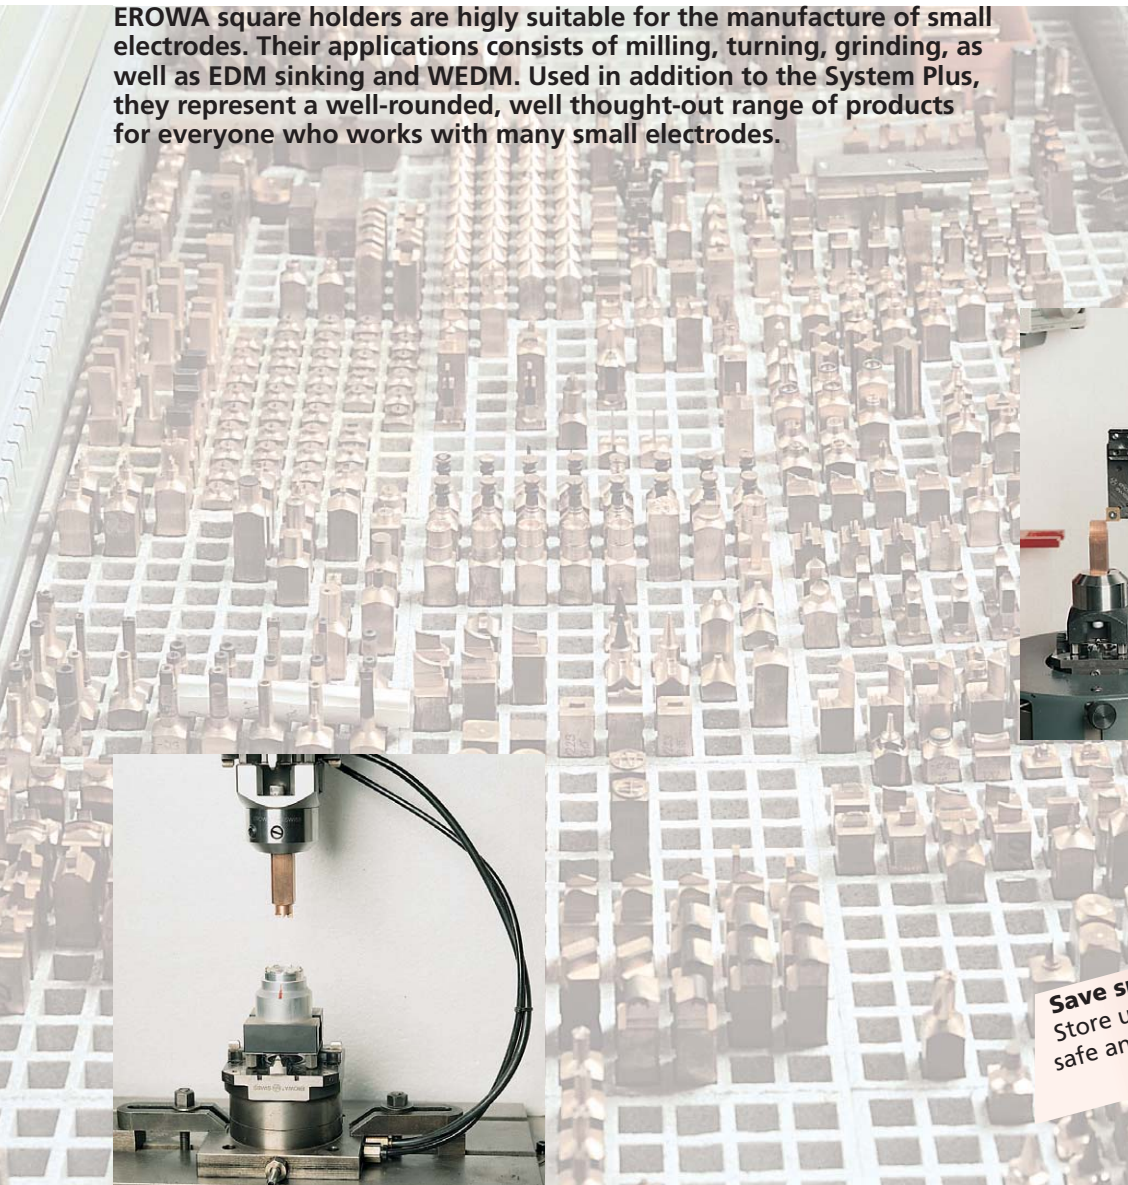

**Version** Fixed type, automatic. Bolt with flushing hole. Set of 20 spigots.

**Application** For electrode holder to be changed automatically. For EDM-ing and and machining with light cutting force.

## Square Electrode System and System Plus

EROWA square holders are highly suitable for the manufacture of small electrodes. Their applications consist of milling, turning, grinding, as well as EDM sinking and WEDM. Used in addition to the System Plus, they represent a well-rounded, well thought-out range of products for everyone who works with many small electrodes.

**Save space**  
Store up to 1600 square electrodes  
safe and handy on 1 m<sup>2</sup>.

### System Plus

The stamped centering profile directly on the blank forms the system reference.

**1. Preparation**  
Stamp in the centering profile.

**2. Milling**  
On a straight System Plus holder.

**3. WEDM**  
On an angle holder.

**4. EDM**  
On a straight holder.

## Square Electrode Clamping System 15

**ER-007986** Square 15 electrode holder, ITS 50  
1 unit

**ER-010907** Square 15 holder, ITS 50  
12 pieces

**Version** ITS system size 50.

**Application** EDM/WEDM.

**ER-032785** Square 15 holder EWIS™, ITS 100

**Version** ITS system size 100

**Application** EDM and chip-cutting processes.

**ER-007870** Square 15 holder, front part

**Version** Only clamping part of the holder.

**Application** For the construction on multiple fixtures.

**ER-015627** Square 15 holder on adapter  $\varnothing 85$

**Version** Clamping part fitted to flange, positioned with rods.

**Application** For the construction on multiple fixtures.

**Mounting** From above through the flange into the base.

1  
Standardization

**ER-009231 Square 15 electrode blank**  
40 pieces

**Version** Set of 40 blanks. EDM copper, drawn profile.  
**Application** Blank for electrodes of up to 15 mm square.

**ER-009866 Square 15 electrode shaft**  
40 pieces

**Version** Set of 40 shafts, drawn steel.  
**Application** To solder or bond to copper or graphite electrode blanks.

**ER-010497 Square 15 electrode shaft M5**  
10 pieces

**Version** Set of 10 blanks, hardened, ground, including M5 bolts.  
**Application** To screw on to electrode blanks.

ITS

## Square Electrode Clamping System 15 and System Plus

**ER-010585 Square 15 blank holder  $\varnothing$  8mm**

**Version** Steel, hardened, ground.  
**Application** To clamp round parts of  $\varnothing$  8 mm.

**ER-010586 Square 15 blank holder  $\varnothing$  6mm**

**Version** Steel, hardened, ground.  
**Application** To clamp round parts of  $\varnothing$  6 mm.

**ER-003467 Holder straight 15 x 15 x 37mm**

**ER-003513 Holder straight 15 x 15 x 57mm**

**Version** Steel, hardened, ground. Centering profile 15 mm.  
 Holder incl. bolt.  
**Application** For electrodes of copper or graphite.  
 Fitting according to supplied instructions.

**ER-003470 Angle holder 15 x 15 x 50mm**

**ER-003367 Angle holder 15 x 15 x 100mm**

**Version** Steel, hardened, ground. Centering profile 15 mm.  
 Holder incl. bolt.  
**Application** For electrodes of copper or graphite.  
 Fitting according to supplied instructions.

**ER-003422 Prism die size 15**

**Version** Steel, hardened, ground. Embossed profile 15 mm.  
**Application** Embossing of centering prisms in blanks.

**ER-010507 Square 15 electrode stand 10 pieces**

**Version** Set of 10 stands, styrene.  
**Application** Storage and transport of blanks and electrodes.

**ER-010502 Square 15 chip guard 10 pieces**

**Version** Set of 10 guards, oil-resistant rubber.  
**Application** Protection against chips during electrode manufacturing.

**ER-010495 Square 15 alignment rail**

**Version** Steel, hardened, ground.  
**Application** Testing of concentricity and angular accuracy of holder to ITS system.

# EROWA ITS Square 15 Element Set

This will provide you with the complete basic equipment to work with EROWA's square 15 system. Additional material, consumables in particular, can be ordered according to requirements.

## ER-010515 Square 15 Electrode Set

This material is packed into one solid plastic box.

ER-002421	Mini collet chuck $\varnothing$ 2.0mm

**Version** Steel, ground, with brass seal for appropriate diameter.  
**Application** Clamping of small electrode tubes.

ITS

## ITS Special Electrode Holders

### ER-008595 Zekant

**Version** Electrode holder with cross slide (2 mm travel) and pendulum movement ( $\pm 4^\circ$ ).

**Application** Clamping and alignment of electrodes. Not suitable for chip-machining.

### ER-008458 V-block holder stainless

**Version** Prism ground bearing surfaces 10 mm  $\pm$  0.005 mm from the center.

**Application** Clamping from outside, precision machined electrodes or small workpieces.

### ER-008551 Horizontal holder

**Version** Hardened and ground 90° angle and centering accuracy 0.005 mm.

**Application** Clamping of electrode holders in horizontal position, may not be used for chip-machining.

### ER-010583 Blank holder $\varnothing$ 10mm

### ER-010581 Blank holder $\varnothing$ 12mm

### ER-010577 Blank holder $\varnothing$ 20mm

**Version** Steel, hardened, ground bore.

**Application** Fit to Uniplate ER-009219 for clamping of precision copper tubes or bars.

**ER-009235 Adapter ø 20mm**

**Version** Hydraulic holding of ø 20 mm shafts.

<b>ER-033654</b>	<b>Thread holder M3</b> P=0.5mm / ø 2.3mm
<b>ER-033655</b>	<b>Thread holder M4</b> P=0.7mm / ø 2.9mm
<b>ER-033656</b>	<b>Thread holder M5</b> P=0.8mm / ø 3.8mm
<b>ER-033657</b>	<b>Thread holder M6</b> P=1mm / ø 4.5mm

**Version** Ground 20 mm shaft.  
**Application** Defined positioning of threaded EROWA electrodes.  
**Note** Systems for M3, M4, M5 and M6.

<b>ER-033204</b>	<b>Threaded electrode M3</b>
<b>ER-033205</b>	<b>Threaded electrode M4</b>
<b>ER-033206</b>	<b>Threaded electrode M5</b>
<b>ER-033207</b>	<b>Threaded electrode M6</b>

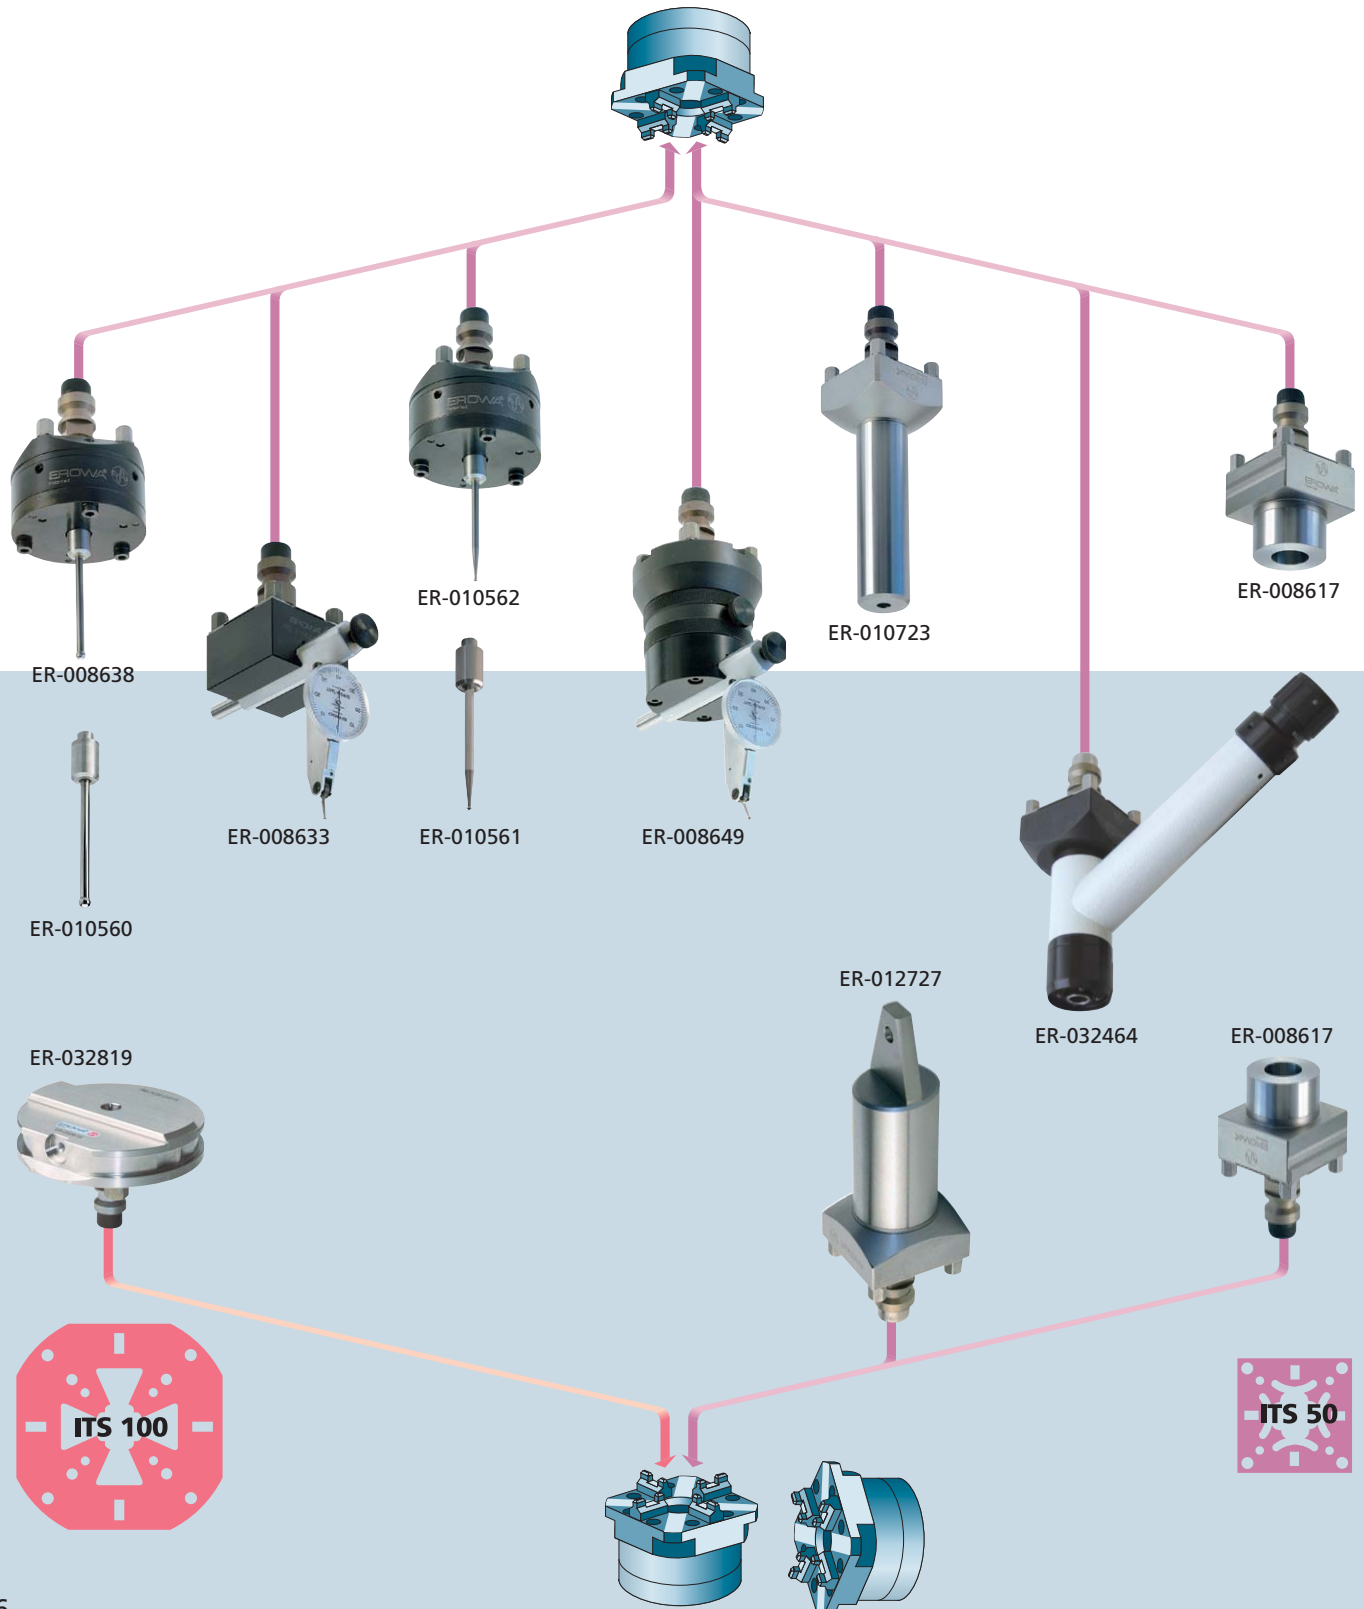

**Version** EDM copper with precision thread.  
**Application** For EDM-ing threads with EROWA Thread holder System.  
**Note** Sizes available for: M3, M4, M5 and M6.

## Measuring and Checking Elements

Trusting is good - checking is better. These specially designed elements will make it easier for you to check your production equipment. These elements are for use both in chip-cutting applications and in EDM sinking and WEDM.

**ER-008638** Sensor with ball  $\varnothing$  5mm  
**ER-010562** Sensor with ball  $\varnothing$  2mm

**Version** Holder with spring-loaded sensing pin and tungsten carbide ball. Overrun protection: X, Y, Z 1 mm. Repetition accuracy: X, Z, Y 0.002 mm.  
**Application** Automatic measurement of workpieces in CNC EDM sinking centers.

**ER-010560** Replacement sensor pin  $\varnothing$  5mm  
**ER-010561** Replacement sensor pin  $\varnothing$  2mm

**Version** Tungsten carbide, incl. adapter part, without spacer washer  
**Application** Replacement of pins in sensors ER-008638 and ER-010562 Attention: spacer washer is matched to the respective sensor.

**ER-010723** Checking pin 50

**Version** Hardened, ground.  
**Application** Alignment of radial, axial and angular position of ITS chucks.

**ER-008617** Gauging pin

**Version** Hardened, ground.  
**Application** Alignment of ITS chucks in radial, axial and angular position.

## Measuring and Checking Elements

### ER-012727 Reference pin UnoSet

**Version** Hardened, ground, borehole  $\varnothing$  8 mm.  
**Application** To determine reference measurements on horizontal chucks.

### ER-008633 Fixed centering device

**Version** Holder with sliding part and metric dial gauge mm. Scale graduation: 0.01 mm.  
**Application** Concentricity measurement of workpieces on machines with C-axis or rotating spindle.

### ER-008649 Rotatable centering device complete

**Version** Holder with rotating and sliding part, including metric dial gauge mm. Scale graduation: 0.01 mm.  
**Application** Concentricity measurement of workpieces on machines without rotating axis.

### ER-032819 Alignment pallet $\varnothing$ 115

**Version** Pallet  $\varnothing$  115 mm, alignment length 110 mm, center borehole  $\varnothing$  12 mm.  
**Application** Alignment of radial, axial and angular position of ITS chucks, PowerChuck P and PC 210 Combi chucks.

**ER-032464 Microscope with pointed checking pin**

**Version** Amplification factor: 40x  
Illumination: 5 V, Transformer: 100-240 V.

**Application** Determination of dimensions for complicated contours. The checking pin with tip serves for adjustment of the optical system.

**ER-001565 Dial gauge ø 38 0.002mm**

**Version** Measuring range +/- 0.2 mm Graduation 0.002 mm.

**Application** On PreSet setup and pre-setting cells, and on ITS centering devices.

# ITS Element Set

## My first EROWA

We have compiled practical sets for newcomers to the modern ITS Integrated Tooling System. Additional material, consumables in particular, can be ordered according to requirements.

Starter set for newcomers, with existing ITS chuck on the EDM quill.

# EROWA ITS Compact Combi

## Three in one

Seamless integration into the existing ITS system.  
The ITS Compact CombiChucks have the same mounting borehole grid as the conventional EROWA ITS chucks.  
Universal clamping of three systems in one single chuck.  
High precision and great performance due to the patented EROWA tooling technology.  
Whether on the machine table or in the tool quill: EROWA's ITS Compact CombiChucks can be used everywhere.

1  
Standardization

**Applications**

Milling / turning

**Handling**

Manual

Loading facility

Robot

**Function**

Drilling / milling

Grinding

EDM sinking

ITS Compact CombiChuck with ITS holder.

After latching into the centering plate, the prismatic spigots ensure powerful and high-precision positioning.

The self-locking ball-lock generates a clamping power of 5,000 N (with reclamping) and does not open even if the pressure fails.

The support feet are cleaned during the clamping process.

After latching to the centering plate, the prismatic spigots in combination with the spring slots ensure powerful and high-precision positioning.

ITS Compact CombiChuck with Compact holder.

**Technical data**

	ITS Compact CombiChuck
System sizes	Compact 30, ITS 50 and ITS 100
Indexing	4 x 90°
Clamping power	3,000 N, 5,000 N with reclamping
Clamping	Spring power
Opening	Compressed air min. 6 bar
Operation	With manual or electropneumatic control unit

EROWA®

ITS Compact Combi

# EROWA ITS Compact Combi

Compact – the best investment value tooling system for electrodes up to  $\varnothing$  50 mm. Compactness, precision, great performance. EROWA's Compact System consists of a complete range of chucks, electrode holders, electrode changers and accessories.

Mixed up in the electrode magazine.

Economical automation by a combined loading of the EDM center.

Three pallet sizes - one chuck.  
EROWA ITS Compact CombiChuck.

Storage capacity of up to 900 parts per square meter.

Compact chucking spigot Combi: for the integration of all Compact electrodes and electrode holders into the EROWA ITS Compact Combi system.

Quick and precise clamping of electrode holders with a fitted chip guard.

Ready - steady - GO! Insert chucking spigot and start machining. Use the ready made copper blank, you won't find a quicker way.

Setting-up and measuring outside the machine: quickl, simple and accurate.

Robust and precise. The Compact standard holder is the base for most clamping applications.

### ER-020025 ITS Compact CombiChuck

**Version** ITS rapid-action chuck with built-in CompactChuck.  
**Connections** At the rear.  
**Application** EDM centers with automatic electrode change, machine tools with automatic loading of ITS and Compact electrode holders.

### ER-020026 ITS Compact CombiChuck with collar

**Version** With flange  $\varnothing 80/55$  mm for flushing connection.  
**Connections** At the rear.  
**Application** EDM centers with automatic electrode change of ITS and Compact electrode holders.

**ER-035261 ITS 50 Compact CombiChuck**

**Version** ITS QuickChuck 50 with built-in CompactChuck.  
**Connections** At the rear.  
**Application** EDM centers with automatic electrode change, machine tools with automatic loading of ITS and Compact electrode holders.

**ER-035262 ITS 50 Compact CombiChuck with collar**

**Version** With flange  $\varnothing 80/55$  mm for flushing connection.  
**Connections** At the rear.  
**Application** EDM centers with automatic electrode change of ITS and Compact electrode holders.

**ER-020027 ITS Compact CombiChuck with clamping pallet**

**Version** With clamping pallet 106 x 106 mm.  
**Connections** With lateral clamping plate for manual and pneumatic control unit.  
**Application** On milling, grinding and EDM centers with manual and automatic loading facilities.

## ER-022511 QuickChuck 100 Combi

**Version** Combi system for EROWA ITS and Compact.  
**To fit** With 4 x M8 bolts.  
**Operation** Manual.  
**Application** To clamp EROWA electrode holders and pallets of the system sizes Compact, ITS 50 und ITS 100.

## ER-022514 QuickChuck 100 Combi P

**Version** Combi system for EROWA ITS and Compact with base plate.  
**Mounting** With bolts or brackets.  
**Operation** Manual.  
**Application** To clamp EROWA electrode holders and pallets of the system sizes Compact, ITS 50 and ITS 100.

## ER-022516 QuickChuck 100 Combi R

**Version** Combi system for EROWA ITS and Compact with rotatable flushing connection.  
**Mounting** With 4 x M6 bolts.  
**Operation** Manual.  
**Application** To fit to rotating axes of EDM centers with lateral flushing connection.

Standardization

**ER-028167 QuickChuck 50 Combi**

- Version** Combi System for EROWA ITS and Compact.
- Mounting** With four M8 bolts or four M6 bolts and nuts.
- Operation** Manual.
- Application** Clamping of EROWA electrode holders of the system size Compact and ITS 50.

## ITS Compact Combi

### Compact ITS Adapter

EROWA ITS Compact Combi tooling system

1

Standardization

#### ER-020487 Compact ITS adapter

**Version** ITS system size 50, lock with central locking bolt.  
Prepared to accommodate chip holder for EWIS chip.

**Operation** Tighten central locking bolt.

**Application** System adapter Compact - ITS.

#### ER-029985 Compact ITS Adapter Chuck

**Version** ITS system size 50, QuickChuck action for Compact holders.

**Operation** Quick locking mechanism with lever.

**Application** Individual Compact chuck for machines which are equipped with standard ITS. System adapter Compact - ITS.

#### ER-029988 Compact ITS angle adapter

**Version** ITS System size 50, QuickChuck locking mechanism of 90° angle chuck.

**Operation** Quick locking mechanism with lever.

**Application** System adapter Compact - ITS.

#### ER-036272 Compact ITS Adapter ø 72

**Version** ITS system size 50 ø 72. Lock with central locking bolt.  
Prepared for chip holder identification system.

**Operation** Tighten central locking bolt.

**Application** System adapter Compact - ITS 50 ø 72 mm.

## ITS Compact Combi Electrode Holder

### ER-017532 Compact Uniholder 18 pieces

**Version** Set of 18 units.  
Without chucking spigot.

**Application** To hold blanks up to 8 mm width.

**To fit blank** Insert and tighten M5 bolts.

### ER-017529 Compact Prisround 10mm 18 pieces

### ER-017530 Compact Prisround 15mm 18 pieces

**Version** Set of 18 units.  
Without chucking spigot.

**Application** To hold blanks with shaft of up to X = 10 mm square (ER-017529), up to X = 15 mm square (ER-017530).

**Mounting** Insert and tighten M5 bolts.

### ER-034045 Compact Collect Chuck Holder 1 unit

**Version** One unit.

**Application** To hold cylindrical parts with respective diameter.

**Please note** Order collect chucks ER 16 (no INOX) separately.

- ER-002394 Collet chuck ER16 ø 2mm
- ER-002395 Collet chuck ER16 ø 3mm
- ER-002396 Collet chuck ER16 ø 4mm
- ER-002397 Collet chuck ER16 ø 5mm
- ER-002398 Collet chuck ER16 ø 6mm
- ER-002399 Collet chuck ER16 ø 7mm
- ER-002400 Collet chuck ER16 ø 8mm
- ER-002401 Collet chuck ER16 ø 9mm
- ER-002402 Collet chuck ER16 ø 10mm

**Version** Clamping range 1 mm per collet chuck. Fits Collet Chuck Holder ER-017531.

ER-017533	Compact Electrode Holder 8mm 18 pieces
ER-017534	Compact Electrode Holder 10mm 18 pieces
ER-017535	Compact Electrode Holder 12mm 18 pieces
ER-017536	Compact Electrode holder 16mm 18 pieces

**Version** Set of 18 units.  
Without chucking spigot.

**Application** To hold cylindrical parts with respective diameter.

**Mounting** Insert and tighten M5 bolts.

# EROWA ITS Compact Combi Electrode

**ER-019512** Compact Electrode  $\varnothing$  30 x 60  
12 pieces, without gripper groove

**Version** Electrode copper.  
Set of 18 units. Without chucking spigot.  
**Application** To produce electrodes up to  $\varnothing$  30 mm.

**ER-030161** Compact electrode 10 x 10 x 45 copper  
36 pieces

**Version** Electrode copper. Set of 36.  
**Application** Production of electrodes of up to 10 x 10 mm.

# EROWA

## ITS Compact Combi

### Accessories

EROWA ITS Compact Combi tooling system

1

Standardization

#### ER-017982 Compact extension 100mm

**Version** Shaft  $\varnothing$  30 x 100 mm.  
**Application** Extends the electrode by 100 mm.  
**Operation** Lock via central bolt through shaft.

#### ER-017984 Compact angle Chuck

**Version** Compact Chuck at 90° angle.  
**Operation** Central locking bolt.  
**Application** Change from vertical to horizontal machining position.

#### ER-029015 Compact standard holder H=16 20 pieces

**Version** Set of 20 per package, without chucking spigot.  
**Application** To fit electrodes and workpieces.  
**Note** Attach blank through the center with the chucking spigot bolt or through the holder with four M4 bolts (option ER-023125, 100 M4 x 14 socket head bolts).

#### ER-029098 Chucking spigot Compact Combi 20 pieces

**Version** Set of 20.  
**Application** To accommodate all the compact electrodes and electrode holders in CompactChucks, ITS-Compact-Combi-Chucks and electrode changers. For handling with the EROWA Combi gripper.

EROWA®

ITS Compact Combi

# EROWA

## ITS Compact Combi

### Accessories

#### ER-051968 Chucking spigot clip 2 open electroconductive / 20 pieces

**Version** Synthetic, set of 20. Electroconductive.  
**To be fitted** to ITS chucking spigot F/A.  
**Application** To fit on ITS chucking spigot F/A. To load/unload ITS electrodes and electrode holders with EROWA Combi gripper.

#### ER-051969 Chucking spigot clip 2 closed electroconductive / 20 pieces

**Version** Synthetic, set of 20. Electroconductive.  
**To be fitted** to ITS chucking spigot F/A.  
**Application** To fit to ITS chucking spigot F/A. To load/unload ITS electrodes and electrode holders with EROWA Combi gripper.

#### ER-020958 Compact System stand 24-fold 10 pieces

**Version** Styrene, set of 10.  
**Application** Storage and transport of 24 parts each. Compact electrodes  $\varnothing$  30 mm, with fitted Compact chucking spigot.

#### ER-022045 System stand Compact Combi 10 pieces

**Version** Plastic, set of 10.  
**Application** Storage of 9 parts each. Compact electrodes with fitted Compact chucking spigot Combi.  
**Note** The system stands can be fitted together to fill an entire surface, i.e. that of a drawer.

#### ER-035154 EWIS™ chip with holder SW14

**Version** Sleeve fitting with built-in datacarrier.  
 EWIS chip: read only.  
**Application** In any EROWA electrode holder and pallet which have been prepared for it.

**ER-008988 Manual control unit**

**Version** Manual valve to control all the functions of ITS, ITS Compact CombiChuck, PowerChuck P and UPC: opening/reclamping/cleaning.  
**Application** Operation of chucks on machines.

**ER-022921 Chip guard for CompactChuck 10 pieces**

**Version** Rubber seal to attach to Compact ITS adapters. Set of 10.  
**Application** Protects Compact ITS adapter and prevents the intrusion of liquids and chips. To be used in combination with sealing ring ER-022922.

**ER-022923 Chip guard for CombiChuck 10 pieces**

**Version** Plastic seal, set of 10.  
**Application** Protects Compact chucks and prevents the intrusion of liquids and chips. To be used in combination with sealing ring ER-022922 or Combi sealing ring ER-022924.

**ER-022922 Sealing ring for Compact holder 50 pieces**

**Version** Rubber seal, set of 50.  
**Application** To be fitted to Compact holder. In combination with chip guards ER-022921 or ER-022923, this prevents the intrusion of liquids and chips into the CompactChuck and the CombiChuck.

## ITS Compact Combi

### Measuring equipment / Accessories

**ER-022924** Combi sealing ring / ITS chucking spigot  
20 pieces

**Version** Plastic seal, set of 20.  
**Application** To be fitted to ITS chucking spigots. In combination with the chip guard ER-022923, this prevents the intrusion of liquids and chips into the CombiChuck.

**ER-019979** Compact centering equipment fixed

**Version** Holder with slide and metric dial gauge.  
Gradation: 0.01 mm.  
**Application** Centric alignment of workpieces on machines with C-axes or rotation spindles.

**ER-019951** Compact centering equipment rotate

**Version** Holder with slide and metric dial gauge.  
Gradation: 0.01 mm.  
**Application** Centric alignment of workpieces on machines without rotation axis.

**ER-017541** Compact Checking pin

**Version** Hardened, ground, corrosion-resistant.  
**Application** To align radial, axial and angular position of Compact chucks.

# EROWA

## ITS Compact Combi

### Measuring equipment

EROWA ITS Compact Combi tooling system

**ER-019473 Compact probe with ball ø 2 mm**

**ER-019474 Compact probe with ball ø 5mm**

**Version** Version with spring-mounted probe and carbide bolt.  
Overrun protection: X-, Y-, Z-axes, 0.3 mm.  
Repeatability: X-, Y-, Z-axes, 0.002 mm.

**Application** Automatic measuring of workpieces in CNC EDM centers.

**ER-032466 Compact Microscope**

**Version** Magnification: 40x  
Supply voltage: 12 Volt  
Lighting: 6 Volt  
Adapter: 110/220 Volt.

**Application** Determination of measurements on complicated contours. The pointed checking pin serves to adjust the optic position.

Order chucking spigots according to requirements.

# EROWA FTS Fine Tooling System

The significance of setting up while the machine is at work is not a function of workpiece size. Rather, it is the time spent on changing from one production batch to another that has a crucial impact on machine productivity. Even with very small parts on machines designed for fine and finest processes, setting up outside the machine can be a critical success factor for production.

The FTS Fine Tooling System has been adapted to exactly these circumstances. With a positioning accuracy of less than 0.002mm and its extremely flat design, it contributes toward an optimal exploitation of the working range of small machines.

- The pallet is positioned and clamped with special profiles.
- The pallet has to be raised only 4mm before it can be removed from the chuck.
- The precision pallet is made of one piece.
- The chuck centers and clamps the pallet by means of spring tension. Thus functional safety is also guaranteed in the case of air-pressure failure.
- The compressed air required to open and clean the chuck is supplied through the lateral connections or directly through the base plate.
- Central through borehole of  $\varnothing 18$  mm.
- The seals ensure that the pallet is neatly and precisely clamped and positioned.

## Application

Milling / turning

Drilling / milling

Grinding

Wire EDM

WEDM

## Handling

Manual

Loading facility

Robot

## Function

Contact surfaces are automatically cleaned with compressed air.

Reliable clamping mechanism thanks to spring tension.

Central through borehole of  $\varnothing$  18 mm.

Pneumatic system can be connected up laterally or through the base plate.

The seals ensure reliable protection from contamination.

## Technical data

### FTS Fine Tooling System

Repeatability	< 0.002 mm
Indexation	4 x 90°
Clamping power	400 N
Recommended workpiece size	depends on machining power
Clamping	by spring tension
Opening	by compressed air, min. 6 bar
Operation	control unit or air gun

EROWA®

# EROWA FTS Fine Tooling System

## High precision

## - low design

Have a closer look at EROWA's FTS Fine Tooling System. All its components are made of stainless steel. The chucks can be fitted to a wide variety of machine tables, either directly or with adapter plates. A standard pallet covers the main range of applications

Chuck height:  
only 23 mm!

FTS in operation on a laser marking machine. The system's high positioning accuracy ensures the quality of signage even on the smallest of workpieces.

Positioning accuracy is below 0.002 mm on all machines. Precision is retained after every machining process change.

The cover prevents penetration of chips and dirt into the FTS chuck.

4 mm vertical movement to remove the pallet. This, too, saves space.

The flat precision pallet is the basis for all clamping processes.

FTS is ideally suitable for the high-precision machining of small and smallest workpieces.

#### ER-057334 FTS chuck manual Inox

**Version** Pneumatic FTS chuck.  
**To fit** With M3x7 bolts through the chuck.  
**Connections** Lateral for opening.  
**Operation** With manual valve ER-010538.

#### ER-057335 FTS chuck pneumatic Inox

**Version** Pneumatic FTS chuck.  
**To fit** With M3x7 bolts through the chuck.  
**Connections** At the rear for opening and cleaning/monitoring.  
**Operation** With manual control unit ER-008988.

#### ER-056950 FTS chuck with base plate Inox

**Version** Pneumatic FTS chuck with base plate.  
**To fit** With M3x4 bolts on grid dimension 63mm through the base plate.  
**Connections** Lateral for opening and cleaning/monitoring.  
**Operation** With manual control unit ER-008988.

## FTS Fine Tooling System

### Auxiliary equipment

#### ER-042223 Pallet FTS

**Version** Steel pallet, hardened, including positioning pin for safe positioning. With central borehole  $\varnothing 18$  mm.

**Application** To accommodate workpieces or fixtures.

**To fit blanks** Through the pallet with M3x4 bolts.

#### ER-045285 Cover FTS

**Version** Aluminum, with elox finish.

**Application** To protect chucks that are not in operation on the machine.

**Note** CANNOT be used as a pallet.

#### ER-044023 Alignment pallet FTS

**Version** Steel, corrosion-resistant, hardened and ground.

**Application** To align and check the chuck position on the machine.

**Note** All the axes – X, Y and Z – as well as the center are checked with the same alignment pallet.

# EROWA ITS Auxiliary Equipment

## Chuck operation

### ER-001846 Air jet

**Version** Plastic, smooth regulation of air flow, connection 1/4", inside thread.

**Application** Operation of manual chucks.

### ER-010538 Manual valve

**Version** Lever valve, incl. 2 m hose and coupling fittings A and B.

**Application** Operation of chucks with an air connection for opening.

**Note** Connecting thread M10x1

### ER-011598 Rapid-action coupling chuck side (A)

**Version** Fast coupling for compressed air.

**Application** Screw into a suitable EROWA chuck. Cf. manual.

**Note** For connecting thread M10x1

### ER-011597 Rapid-action coupling hose side (B)

**Version** Fast coupling for compressed air

**Application** For use on the air supply

### ER-008988 Manual control unit

**Version** Manual valve to control all the functions of ITS, ITS Compact CombiChuck, PowerChuck P and UPC: opening/reclamping/cleaning.

**Application** Operation of chucks on machines.

**ER-039466 Additional valve double**

**Version** For mounting to the manual control units ER-008988 and ER-025893, incl. set of hoses.

**Application** Operating of two separate chucks with one single control unit.

**ER-010520 Pressure booster**

**Version** Quick-connect couplings for hose  $\varnothing i = 8$  mm. Output pressure: 8 bar. Compression ratio: 1:2

**Application** On insufficient system pressure and on pressure fluctuations.

**Installation** Integrate in air circuit near application.

**ER-011362 Twin rotatable pneumatic connector**

**ER-011412 Triple rotatable pneumatic connector**

**Version** Non machine specific connection flange. Two (three) air lines.

Max. speed: 6000 rpm.

Max. operating pressure: 10 bar.

**Application** Air supply to EROWA chucks on rotatable spindles.

**Operation** Only operate when spindle is at stand still!

**ER-010590 Control unit with monitoring**

**Version** Electropneumatic valve. Outputs for chucks: opening/cleaning/reclamping. 24 V, incl. mounting accessories and 3 m connection hose.

**Application** Operation and monitoring of machine-integrated chucks, for instance through the CNC M-function.

# EROWA ITS Auxiliary Equipment

## Toolroom accessories

### ER-010906 Set of tools

**Application** A = Box wrench 8/10 mm for supporting feet M5  
 B = Key 8 mm for chucking spigot  
 C = Key with handle 4 mm  
 D = Key with handle 3 mm  
 E = Screwdriver for slotted screws in Uniplate  
 F = Open-end wrench 8 mm

### ER-011600 Torque wrench

**Version** Torque range up to 20 Nm, inc. 3, 4, 5 mm key and one WS 8 mm bit.

**Application** Service and fitting work on ITS system parts.

### ER-010710 Drilling template

**Version** Steel, hardened, precision guide bores.

**Application** Fast drilling of hole pattern for ITS centering plates 50 and 100.

### ER-010532 Spacer plate 300 pieces

**Version** 6 x 50 plates. Corrosion-resistant. Thicknesses from 0.5 mm to 5 mm.

**Application** Centering of blanks in electrode holders.

### ER-010514 Insert plates 0.5mm 50 pieces

### ER-010518 Insert plates 1mm 50 pieces

### ER-010521 Insert plates 2mm 50 pieces

### ER-010523 Insert plates 3mm 50 pieces

### ER-010525 Insert plates 4mm 50 pieces

### ER-010526 Insert plates 5mm 50 pieces

**ER-013913 System stand**  
10 pieces

**Version** Plastic, set of 10.  
**Application** As a rack for four electrode holders 50 or a pallet  
 ø 115/148 mm.  
**Please note** System racks can be stuck together without any gaps,  
 e. g. to be stored in drawers.

**ER-010661 Carrier fork for electrode changer**

**Version** Steel, hardened, ground.  
**Application** To build simple electrode changers, suitable for  
 ER-007521 and ER-007523

**ER-024808 Pick-up fork Combi**

**Version** Corrosion-resistant steel.  
**Application** To make simple electrode changers suitable for  
 chucks ER-020025 and ER-020026.

# EROWA ITS Auxiliary Equipment

## Toolroom accessories

**ER-022457** Supporting foot SW13H/L=16/L1=11.4  
20 pieces

**ER-008547** Support foot SW13/L=16/L1=10.2  
20 pieces

**ER-008553** Support. foot SW13/L=21/L1=10.2  
20 pieces

**Version** Set of 20 supportfeet.  
ER-022457 L = 16 in combination with.  
G-centering plates,  
Position outside the centering plate.  
ER-008547 L = 16 for punched centering plates,  
ER-008553 L = 21 for G-centering plates.

**ER-010744** Chip guard 50 x 50mm  
for rapid-action chuck

**Application** On Uniplate, Prisround and all other standardholders.

**ER-022355** Sealing ring for ITS chucking spigot  
50 pieces

**Application** Set of 50 sealing rings. Sealing between chucking  
spigot and Rapid-action chuck.

**ER-008475** Chip guard 50 x 50 for power chucks

**Application** On Uniplate, Prisround and all other standard  
holders.

**ER-035154 EWIS™ chip with holder SW14**

- Version** Sleeve fitting with built-in datacarrier.  
EWIS chip: read only.
- Application** In any EROWA electrode holder and pallet which have been prepared for it.

**ER-035156 EWIS™ Chip with holder long**

- Version** Holder with built-in datacarrier.  
EWIS™ Chip: read only.
- Application** With EROWA Collet Chuck holders and Square 15/25 holders.
- Mounting** With supplied M4 bolts.

**ER-035294 EWIS™ chip with holder / RCS**

- Version** Holder with built-in datacarrier.  
EWIS chip: read only.
- Application** To build into RCS coupling, PalletSet W holder and Basic WEDM holder.

# EROWA ITS Auxiliary Equipment

## Spare parts

**ER-010694** Sealing washer  
24 pieces

**Application** Set of 24 washers. Insertion in Prisround for sealing on central flushing.

**ER-013062** Repair kit, ITS chucks

**ER-015985** Repair kit, ITS chucks, INOX

**Version** All the wear parts of ITS rapid-action chucks.

**Application** Dismantle chuck according to instructions supplied, replace parts.

**Please note** Every chuck is supplied with instructions. Please keep in a safe place.

**ER-015962** Repair kit PowerChuck P

**Version** All the wear parts of PowerChuck P.

**Application** Dismantle chuck according to instructions supplied, replace parts.

**Please note** Every chuck is supplied with instructions. Please keep in a safe place.

**ER-023121** UPC repair kit  
O-rings, springs, balls

**Version** All the wearing parts of UPC ER-016092 and ER-016093.  
**Application** Dismantle UPC according to instructions supplied, replace parts.  
**Note** Each UPC is supplied with an operating manual, which you will please keep.

**ER-023120** UPC P repair kit  
O-ring, springs, balls

**Version** All the wear parts of UPC P ER-016841.  
**Application** Dismantle UPC P according to instructions supplied, replace parts.  
**Note** Each UPC P is supplied with an operating manual, which you will please keep.

**ER-009007** Viton seal  
10 pieces

**Version** Set of 10 seals.  
**Application** To fit ITS rapid-action and power.

ITS

# EROWA Wire EDM Tooling

EROWA tooling systems make WEDM centers considerably more flexible and productive. Down-times can be virtually eliminated. Expensive machines can work round the clock. Our program contains system components for newcomers, for those who would like to extend the use of ITS, and for top-end users. You define the framework and you are bound to win.

**Applications**

Wire EDM

**Handling**

Manual

Loading station

Robot

**Advantages**

- Modular tooling system.
- Single and multiple palletization.
- Repeatability of clamping elements 0.002 mm.
- WEDM basic kits for all popular WEDM centers.
- Can be automated with EROWA handling facilities.

**Technical data**

	Flat clamping chuck		Chuck RSA 50	QuickChuck 50 RSM

Max. weight of pallet	30 kg (with support)	30 kg (with support)		

EROWA®

# Find a workpiece you can't clamp!

The right solution for every application. With well-thought-out combinations of vises, clamping elements and clamping beams, any conceivable workpiece can be clamped. The repeatability of EROWA's Wire EDM tooling system allows for workpieces to be preset outside the machine and for safe automatic loading. Ongoing jobs can be interrupted for express jobs and then continued later.

Free access to wire guides even if the workpieces is only a few millimeters thin.

The flat vise for free wire-guide access.

Use removable supports where they make sense. Thread in EDM wire through the special grooves.

Special fixture for cylindrical parts. Fitted to a pendulum holder, the workpiece can be adjusted in three axes.

Combination of frame and UnoSet for electrode machining.

Adjustable in all axes: the pendulum holder with fitted flat vise.

Standardization

Presetting the workpieces saves time.

**PreSet 3D CNC** – presetting made easy. While the WEDM center is in operation, the next job is being preset quickly and accurately on the EROWA PreSet station.

**Single palletization** in a manned shift: this is where the tricky jobs are done.

EDM electrode holders are positioned on the WEDM center for machining both quickly and with high precision.

**EROWA Lift** – to take care of your back and easy on the machine.

**Loading Robot** – for more machine autonomy at night and on weekends.

**Version** Automatic, with pneumatic valve.  
**Application** ITS base for the manual or automatic loading of ITS elements.  
**Use** On all machine bases and FrameSet beams. Can be used either horizontally or vertically.

#### ER-007852 QuickChuck 50 RSM / on universal plate UnoSet

**Version** Manual.  
**Application** ITS base for the manual loading of ITS elements.  
**Use** On all machine bases and FrameSet beams. Can be used either horizontally or vertically.

#### ER-022583 Clamping chuck 50 RSA / UnoSet on adapter plate R=100mm

**Version** Chuck 50 on adapter plate, manual.  
**Application** To be fitted directly to any machine bases with attachment boreholes in a 100 mm grid.

#### ER-022584 QuickChuck 50 RSM UnoSet on adapter plate R=100mm

**Version** Chuck 50 on adapter plate, manual.  
**Application** To be fitted directly to any machine bases with attachment boreholes in a 100 mm grid.

**ER-035690 ManoSet rail P 890mm XXL**

**Version** Supplied: 1 unit.  
 Rail for large WEDM centers.  
 X = 890 mm, Y = 75 mm.

**Mounting** directly on the Z=0 base.

**Application** To clamp large workpieces with XXL clamping beams 540, ER-037307 or clamping beams 620, ER-034989 (see page 215).

**Note** ManoSet rail XXL suitable for Sodick AQ 750 L and Makino SP 64 (see page 232/233).

**ER-038985 ManoSet rail L Length 850mm XXL**

**Version** Supplied: 1 unit.  
 Rail for large WEDM centers.  
 X = 850 mm.

**Mounting** directly on the Z=0 base.

**Application** To clamp large workpieces with XXL clamping beams 540, ER-037307 or clamping beams 620, ER-034989 (see page 215).

**Note** ManoSet rail XXL suitable for Makino EU 64 and SP 64 (see page 232/233).

**ER-012847 ManoSet rail P length 947mm XXL**

**Version** Supplied: 1 unit.  
 Rail for large WEDM centers.  
 X = 947 mm.

**Mounting** Directly on the Z=0 base.

**Application** To clamp large workpieces with XXL clamping beams 540, ER-037307 or clamping beams 620, ER-034989 (see page 215).

**Note** ManoSet rail XXL suitable for Charmilles CTFI60++ and Sodick AQ 750 L (see page 232/233).

### Interfaces to machine table

#### ER-042904 ManoSet rail P length 890mm XXL

**Version** Supplied: 1 unit.  
Rail for large WEDM centers.  
X = 890 mm, Y = 75 mm.

**Mounting** directly on the Z=0 base.

**Application** To clamp large workpieces with XXL clamping beams 540, ER-037307 or clamping beams 620, ER-034989 (see page 215).

**Note** ManoSet rail XXL suitable for Charmilles CT FI 640cc, CT FI 690 and ONA AE 600 (see page 232/233).

#### ER-043487 ManoSet Beam P length 860mm XXL

**Version** Supplied: 1 unit.  
Rail for large WEDM centers.  
X = 860 mm, Y = 50 mm.

**Mounting** directly on the Z = 0 base.

**Application** To clamp large workpieces with XXL clamping beams 540, ER-037307 or clamping beams 620, ER-034989 (see page 215).

**Note** ManoSet rail XXL suitable for Mitsubishi FX 30 / FA30, CT FI6050, Makino SP64 (see page 232/233).

#### ER-041430 ManoSet rail L Length 1010mm XXL

**Version** Supplied: 1 unit.  
Rail for large WEDM centers.  
X = 1010 mm.

**Mounting** directly on the Z = 0 base.

**Application** To clamp large workpieces with XXL clamping beams 540, ER-037307 or clamping beams 620, ER-034989 (see page 215).

**Note** ManoSet rail XXL suitable for Makino U86 (see page 232/233).

## Wire EDM Tooling

### Adapters for interfaces

#### ER-030923 Pendulum holder 3D PalletSet W

**Version** Pendulum head for automatic and manual loading.  
G-Centering plates for increased durability.

**Application** Basis for all the other clamping elements such as UniVise square, frame pallet, vise and beam pallet.

**Note** Adjustable in the X-, Y- and Z-axes.  
Slim Line Version 15 mm reduced in height for best access of lower wire guide

#### ER-030678 Fix holder PalletSet W

**Version** Standard element for automatic and manual loading.

**Application** Base for all other clamping elements such as UniVise square, frame plate, vise and beam pallet.

**Note** Adjustable in the C-axis.

#### ER-030645 UnoSet Adapter PalletSet W centering plate G

**Version** System adapter of PalletSet W to UnoSet.

**Application** Clamps workpieces of system size ITS 50 horizontally into the workspace.

**Note** Fits all UnoSet and ITS 50 clamping elements.

#### ER-031942 Basic WEDM pendulum holder Basic Tooling

**Version** Pendulum head for manual loading.

**Application** For use on the Basic WEDM chuck. As a basis for all other clamping elements like UniVise, square, vise and beam pallet.

**Note** Adjustable in the X-, Y- and Z-axes.

**ER-033955 Basic WEDM fix holder  
Basic Tooling**

**Version** Standard element for manual loading.  
**Application** For use on the Basic WEDM chuck.  
 As a basis for all other clamping elements like UniVise, square, vise and beam pallet.  
**Note** Adjustable in the C-axis.

**ER-030643 Adapter UnoSet with RSA 50  
PalletSet W**

**Version** System adapter from Palletset W to UnoSet.  
**Application** Clamps workpieces of the ITS 50 system size horizontally into the workspace.  
**Clamping power** 2800 N  
**Note** Suitable for all UnoSet and ITS 50 clamping elements.

**ER-033933 PSW adapter QuickChuck 50 Combi  
PalletSet W / centering plate G**

**Version** System adapter from Palletset W to UnoSet and/or Compact.  
**Application** Clamps workpieces of the ITS 50 and Compact system sizes horizontally into the workspace.  
**Note** Suitable for all UnoSet and ITS 50 clamping elements and Compact clamping elements.

**ER-033974 PSW adapter QuickChuck 100  
PalletSet W**

**Version** System adapter from Palletset W to UnoSet, ITS 50, holder  $\varnothing 72$ , and pallets 148, 115.  
**Application** Clamps workpieces of the ITS 50 and ITS 100 system sizes horizontally into the workspace.  
**Note** Suitable for all UnoSet clamping elements.

# EROWA

## Wire EDM Tooling

### Adapters for interfaces

#### ER-038710 Adapter Z-Vario PalletSet W / UnoSet RSM

**Version** System adapter from Palletset W to UnoSet. Z-axis height adjustable.

**Application** To clamp UnoSet and electrodes/workpieces in the ITS 50 system size horizontally into the workspace.

**Note** Suitable for use with the whole ITS 50 system and electrode holders.

#### ER-039795 Holder ø 72 PalletSet W

**Version** System adapter from Palletset W to ITS 50 holder ø 72

**Application** Clamps workpieces of holder ø 72 size horizontally into the workspace.

**Operation** Pneumatically with air jet.

**Note** Suitable for all holders ø 72 and ITS 50.

#### ER-038711 Extension arm Z-Vario PalletSet W / UnoSet

**Version** Extension arm with centering system connection to ITS 50. Accommodates workpieces and electrodes.

**Application** Accommodation of workpieces and electrodes for machining in a horizontal or vertical position.

**Load** Max. 6 kg

**Note** Can be used in combination with adapter Z-Vario PSW/UnoSet. Indexation around 4x90°.

#### ER-020596 Extension arm UnoSet

**Clamping range** 80 mm

**Max. load** 6 kg

**Version** The extension arm UnoSet with QuickChuck 50 is suitable for the accommodation of workpieces and electrodes that have to be machined in a vertical and in a horizontal position.

**Note** Indexable around 4x90°.

**ER-007877 TurnFix 50 UnoSet**

**Version** Chuck 50, manual, with ITS base plate, continuously able to rotate round 360°.

**Application** ITS base for the manual loading of ITS elements carrying workpieces that require angular positions.

**Use** On any ITS chuck of system size 50.

**ER-028471 Angled clamping unit UnoSet for QuickChuck 50**

**Version** Chuck 50, angle to be set with the vernier.

**Application** WEDM or EDM.  
To fit lateral sprues to casting tools.

**Max. load** 6 kg.

**Max. work-piece size** 100 x 100 x 100 mm.

**Connections** Flushing connection in place.

**ER-027640 Square clamping unit CompactChuck 50 Combi UnoSet QuickChuck**

**Version** CompactChuck 50 Combi.  
Angle to be set with the vernier.  
Angled clamping unit made of corrosion-resistant steel.

**Application** WEDM or EDM.

**Connections** Flushing connection in place.

# EROWA

## Wire EDM Tooling

### Adapters for interfaces

#### ER-027641 Square clamping unit for CompactChuck M UnoSet

**Version** CompactChuck manual.  
Angle to be set with the vernier.  
Angled clamping unit made of corrosion-resistant steel.

**Application** WEDM or EDM.

**Connections** Flushing connection in place.

#### ER-028480 Angled clamping unit UnoSet for collet chuck electrode holder

**Version** Angled clamping unit made of corrosion-resistant steel, except collet chuck unit.  
Angle to be set with the vernier.

**Application** WEDM or EDM.

**Connections** Flushing connection in place.

### Fixtures for adapters

#### ER-030110 5-fold beam 300 QuickChuck

**Version** Five chucks 50, manual, in a row.  
**Application** ITS adapter for the manual loading of five ITS elements.  
**Use** On all FrameSet clamping frames, carrier plates and ManoSet bases. Width 300 mm.

#### ER-018938 UniVise square PalletSet W

**Version** Square with all the clamping accessories.  
**Application** To be fitted to fix holders or pendulum holders.  
**Note** Max. load: 10 kg.

#### ER-018940 Vise PalletSet W

**Version** Clamping element with clips for one-sided attachment to workpieces.  
**Application** To be fitted to fix holders or pendulum holders.  
**Note** Max. load: 12 kg.

#### ER-019248 Prism holder 80 PalletSet W

**Version** Prism and clamping part with detachable Z-supports.  
**Application** Clamping of cylindrical workpieces of up to  $\varnothing 80$  mm.  
**Assembly** To be fitted to the front of beam pallet ER-018937 or clamping beams (cf. p 215).  
**Note** Max. load: 6 kg.

#### ER-031179 Prism holder 120mm PalletSet W

**Version** Prism and clamping bars with detachable Z-supports.  
**Application** To clamp cylindrical workpieces of up to  $\varnothing 120$  mm.  
**Mounting** directly to fixholder or pendulum holder.  
**Note** Max. load: 10 kg.

## Wire EDM Tooling

### Fixtures for adapters

#### ER-031945 Basic holder PalletSet W

**Version** To accommodate various clamping elements.  
**Application** To fit to fixholder or pendulum holder 3D.  
**Options** Jaw holder ER-033958 or bracket holder ER-031952.

#### ER-025895 Vise 40mm PalletSet W

**Version** Vise with fixed Z-lip and jaws attached from above. Hardened and ground.  
**Clamping range** max. 150 x 150 x 40 mm.  
**Max. load** 12 kg  
**Application** Lateral clamping of workpieces of 0 -150 mm machined from the outside. To be fitted to fix or pendulum holders.

#### ER-025896 Vise PalletSet W 100mm

**Version** Vise with fixed Z-lip and jaws fitted from above.  
**Application** To clamp workpieces of up to 100 mm in height. To be fitted to fixholder or pendulum holder.  
**Max. clamping range** 150 x 150 x 100 mm.  
**Max. load** 12 kg

#### ER-034631 Vise PalletSet W 140mm

**Version** Vise with fixed Z-lip and jaws fitted from above. Hardened and ground.  
**Application** To clamp workpieces of up to 140mm in height. To be fitted to fixholder or pendulum holder.  
**Max. load** 12 kg  
**Max. clamping range** 150 x 100 x 140 mm

**ER-051800 Sine vise PalletSet W**

**Version** Vise with adjustable angle position and jaws fitted from above. Hardened and ground.

**Application** To clamp workpieces at angles adjustable between 0-90°. To fit to fixholder or pendulum holder.

**Clamping range** min. 10 mm / max. 75 mm

**Max. load** 12 kg

**ER-018941 Frame pallet PalletSet W**

**Version** Clamping frame for multiple palletization of workpieces

**Application** To be fitted to fix holders or pendulum holders.

**Option** Clamping beam 220 ER-017645.

**Note** To support the clamping frame, use Z-supports. (Page 220/221).

**ER-029228 Z-Vario QuickChuck PalletSet W**

**Version** Fits 3D ER-030923 pendulum holder. Hardened and ground.

**Max. load** 8 kg

**Clamping range** max. height adjustment 30 mm.

**Application** To machine electrodes in PSW which have to be adjusted in height.

**ER-029229 Z-Vario clamping elements PalletSet W**

**Version** Fits 3D ER-030923 pendulum holder. Hardened and ground.

**Max. load** 8 kg

**Clamping range** max. height adjustment 30 mm.

**Application** PSW clamping elements can also be adjusted in height.

# EROWA

## Wire EDM Tooling

### Fixtures for adapters

#### ER-025115 Z-support universal PalletSet W pneumatic, 1 pair

**Version** 1 pair of supports. Hardened and ground.  
**Mounting** Directly on the Z=0 base of the WEDM center.  
**Operation** With manual control unit.  
**Application** Support and clamping of the frame plate with weights of up to 30kg. Stabilizes the frame plate in case of high flushing pressure.

#### ER-025116 Z-support universal PalletSet W manual 1 pair

**Version** 1 pair of supports. Hardened and ground.  
**Mounting** Directly on the Z=0 base of the WEDM center.  
**Operation** Manually  
**Application** Support and clamping of the frame plate with weights of up to 30 kg. Stabilizes the frame plate in case of high flushing pressure.

#### ER-025100 Z-support beam 300 PalletSet W manual

#### ER-025101 Z-support beam 380 PalletSet W manual

#### ER-027205 Z-support beam 460 PalletSet W manual

**Version** Support beam for use in EROWA ManoSet.  
**Operation** Manually  
**Application** Support and clamping of the frame plate with weights of up to 30 kg in combination with EROWA ManoSet. Stabilizes the frame plate in case of high flushing pressure.

- ER-025027** Z-support beam 300 PalletSet W pneumatic
- ER-025030** Z-support beam 380 PalletSet W pneumatic
- ER-028306** Z-support beam 460 PalletSet W pneumatic

**Version** Support beam for use in EROWA ManoSet.  
**Operation** Pneumatically.  
**Application** Support and clamping of the frame plate with weights of up to 30kg in combination with EROWA ManoSet. Stabilizes the frame plate in case of high flushing pressure.

**ER-008814 Precision vise 0 - 100 UnoSet**

**Clamping range** Ranges from 0 to 100 mm.  
**Max. extension** 40 mm at 100 mm workpiece height.  
**Zuladung** max. 5 kg.  
**Version** Workpiece fixed. Including three sets of clamping jaws.

# EROWA

## Wire EDM Tooling

### Fixtures for adapters

#### ER-007935 Rotary vise 0 - 100 UnoSet

**Clamping range** 0–100 mm  
**Max. extension** 40 mm with 100 mm part height.  
**Zuladung** max. 5 kg.  
**Version** Continuously able to rotate around 360°. Set with three pairs of clamping jaws.

#### ER-014698 VeeVise UnoSet

**Clamping range** 0–50 mm  
**Max. extension** 40 mm with 100 mm part height.  
**Zuladung** max. 5 kg.  
**Version** Clamping component without ITS connection. To fit to an existing pendulum rotating adapter.

#### ER-008842 Pendulum vise 0 - 100 UnoSet

**Clamping range** Ranges from 0 to 100 mm.  
**Max. extension** 40 mm at 100 mm workpiece height.  
**Zuladung** max. 5 kg.  
**Version** Workpiece adjustable in two axes. Including three sets of clamping jaws.

#### ER-008856 Rotatable pendulum vise 0 - 100 UnoSet

**Clamping range** 0–100 mm  
**Max. extension** 40 mm with 100 mm part height.  
**Zuladung** max. 5 kg  
**Version** For adjustable workpiece positioning in three axes. Continuously able to rotate around 360°. Set with three pairs of clamping jaws.

**ER-014722 VeeVise TP UnoSet**

**Clamping range** 0–100 mm  
**Max. extension** 40 mm with 100 mm part height.  
**Zuladung** max. 5 kg.  
**Version** For adjustable workpiece positioning in three axes. Continuously able to rotate around 360°. Set with three clamping jaws.

**ER-016691 V-Block holder UnoSet**

**Clamping range** Parts up to  $\varnothing 40$  x height 150 mm  
**Max. load** 1.5 kg  
**Application** To clamp parts in prismatic slot. Parallel and angular precision 0.01 mm.

**ER-015670 UniVise P UnoSet**

**Clamping range** Round parts:  $\varnothing 5$ –85 mm  
 Flat parts: 140 x 100 mm  
**Max. load** 5 kg  
**Version** Complete set with all clamping accessories. Workpiece adjustable in three axes.

**ER-055535 Flat vise 8mm UnoSet**

**Version** One movable jaw and one fixed jaw. Hardened, ground and corrosion-resistant.  
**Clamping range** 0 - 100 mm.  
**Max. load** 5 kg  
**Application** Lateral clamping of workpieces machined outside of 0 - 100 mm.

# EROWA

## Wire EDM Tooling

### Clamping elements for fixtures

#### ER-031952 Bracket holder PalletSet W (1 pair)

**Version** Two movable vertical jaws. Hardened, ground and corrosion-resistant.

**Application** Variable vise to be fitted to basic holder PSW.

**Mounting** Directly to basic holder ER-031945, using the fittings supplied.

#### ER-033958 Jaw holder PalletSet W

**Version** One movable jaw and one fixed jaw. Hardened, ground and corrosion-resistant.

**Application** Variable vise to be fitted to basic holder PSW.

**Mounting** Directly to basic holder ER-031945, using the fittings supplied.

#### ER-016914 BeamVise single

**Version** One movable and one fixed stop jaw. Hardened, ground, corrosion-resistant.

**Application** Variable vise laterally on EROWA clamping beams.

**Assembly** With the enclosed assembly elements to the desired clamping beam Pallet Set W ER-018937.

#### ER-016658 BeamVise Twin

**Version** Two movable stop jaws and one fixed stop jaw. Hardened, ground, corrosion-resistant.

**Application** Variable vise laterally on EROWA clamping beams.

**Assembly** With the enclosed assembly elements to the desired clamping beam PalletSet W ER-018937.

#### ER-008231 Mini distance support

**Application** As side support for workpieces, or for clamping small, flat single parts.

**Presetting** The support surface height corresponds to Z = 0 and is not adjustable.

**Use** On all clamping and gripping beam ER-018937.

**ER-008875 Fixed distance support**

**Application** As side support for workpieces, or for clamping small single parts.  
**Presetting** The support surface height corresponds to  $Z = 0$  and is not adjustable.  
**Use** On all clamping and gripping beams.

**ER-008873 Adjustable distance support**

**Application** As side support for workpieces, or for clamping small single parts.  
**Presetting** The support surface height corresponds to  $Z = 0$  and is adjustable  $\pm 0.15$  mm.  
**Use** On all clamping and gripping beams.

**ER-007990 DiaFix 3 pieces**

**Application** For supporting round parts with diameters starting at 50 mm, or as a side support for rectangular workpieces.  
**Presetting** The support surface height corresponds to  $Z = 0$  and is not adjustable.  
**Use** On all clamping beams.

**ER-008221 Z beam**

**Application** As side support for workpieces, or for clamping small single parts.  
**Presetting** The support surface height corresponds to  $Z = 0$  and is adjustable  $\pm 0.15$  mm.  
**Use** On all plates and beams with  $Z = + 14$  mm.

**ER-008220 Z universal support**

**Application** As side support for workpieces, or for clamping small single parts.  
**Presetting** The support surface height corresponds to  $Z = 0$  and is adjustable  $\pm 0.15$  mm.  
**Use** On all carrier plates and bases with  $Z = 0$ .

## Wire EDM Tooling

### Clamping elements for fixtures

#### ER-016657 BeamStop Set

**Version** Set of two stops for EROWA beams. Hardened, ground, corrosion-resistant.

**Application** On ManoSet base rails, on Basic Adapter and in RoboSet Clamping frames.

**Assembly** With the enclosed bolts.

#### ER-016652 Basic adapter set

**Version** A pair of ground, hardened, corrosion-resistant steel plates with variable assembly hole grids, including BeamStop.

**Application** Base on WEDM machines unequipped with tooling system for the use of EROWA ManoSet clamping beams.

**Assembly** With the enclosed assembly elements directly onto the existing Z-zero machine structure.

#### ER-017198 Basic adapter

**Version** A ground, hardened, corrosion-resistant plate with variable assembly hole grids.

**Application** Base on WEDM machines with no tooling system. With chucks ER-007851/ER-007852.

**Assembly** With the enclosed bolts directly onto the existing Z-zero base.

# EROWA

## Wire EDM Tooling

### Accessories

EROWA Wire EDM Tooling

1

Standardization

#### ER-012727 Reference pin UnoSet

**Version** Hardened, ground, borehole  $\varnothing$  8 mm.  
**Application** To determine reference measurements on horizontal chucks.

#### ER-055158 Alignment pallet PalletSet W

**Version** Hardened, ground gauge with lateral reference surfaces and two defined reference boreholes.  
**Application** To determine the reference point and to align chucks.

#### ER-022669 Bracket for flat chuck

**Version** Steel, unhardened. Set of 2.  
**Application** To fit flat chucks to WEDM centers.

#### ER-022670 Bracket for Agie flat chuck

**Version** Steel, with attachment boreholes. Set of 2.  
**Application** To fit flat chucks to Agie WEDM centers.

Wire EDM Tooling

EROWA®

# EROWA

## Wire EDM Tooling

### Accessories

#### ER-028913 Insulation set PalletSet W

**Application** To fit underneath the flat chucks and Z-supports to insulate the tooling system.

#### ER-026768 Cover for flat chucks

**Version** Cover for flat chucks  
**Application** Protects flat chucks that are not in use against contamination and damage.

#### ER-027695 Cover for flat clamping chuck PalletSet W

**Version** Set consisting of 2 covers for flat chucks and 4 covers for Z-supports.  
**Application** Protects flat chucks and Z-supports that are not use against contamination and damage.

#### ER-035156 EWIS™ Chip with holder long

**Version** Holder with built-in datacarrier.  
 EWIS™ Chip: read only.  
**Application** With EROWA Collet Chuck holders and Square 15/25 holders.  
**Mounting** With supplied M4 bolts.

#### ER-035294 EWIS™ chip with holder / RCS

**Version** Holder with built-in datacarrier.  
 EWIS chip: read only.  
**Application** To build into RCS coupling, PalletSet W holder and Basic WEDM holder.

**ER-030671 Centering plate, G100 M8 x 1 PalletSet W**  
5 pieces

**Version** Set of 5, including support feet.  
**Application** To be fitted directly to workpiece and electrodes to be used on flat chucks.

**ER-008910 Spacer plate 3 mm**  
8 pieces

**Version** Set of 8 plates. Ground, hardened.  
**Application** To fit underneath clamping beams to raise the Z-support by 3 mm. This prevents collisions in the working range of the lower flushing nozzles.

**ER-008988 Manual control unit**

**Version** Manual valve to control all the functions of ITS, ITS Compact CombiChuck, PowerChuck P and UPC: opening/reclamping/cleaning.  
**Application** Operation of chucks on machines.

**ER-018936 Gripper Link RCS PalletSet W**

**Version** Gripper coupling for RCS gripper, consisting of 4 positioning pins and a chucking spigot.  
**Application** On all EROWA handling devices equipped with the RCS coupling system.  
**Assembly** Glue in pins according to instructions, fit chucking spigot with bolt.  
**Note** Recess for EWIS chip (not included) in the chucking spigot.

# EROWA

## Wire EDM Tooling

### Accessories

**ER-034533** FrameSet gripper bolts  
4 pieces

**Version** Set of 4 gripper bolts.  
**Application** For FrameSet clamping frames with EROWA handling facilities.  
**Note** Can only be used in connection with FrameSet gripper automation.

**ER-008846** Slotted nut M8  
10 pieces

**Quantity** 10  
**Application** On long setscrews, to avoid time-consuming nut tightening.

**ER-008848** Eye bolt M8  
1 couple

**Quantity** 2  
**Application** To raise loaded clamping frames with a crane or lifting device.

**ER-007799** Spacer plate large  
50 pieces

**Quantity** 50  
**Application** As supports for chucking claws.

**ER-007781** Spacer plate small  
50 pieces

**Quantity** 50  
**Application** As supports for chucking claws.

**ER-001674** Erogrease  
1kg

**Version** 1kg tin.  
**Application** For the durable lubrication of guides, joints and threads submerged in water.

**ER-010734 Branotect maintenance spray**  
0.4 liter

**Version** 0.4 litre aerosol.  
**Application** For the maintenance and conservation of all the clamping elements used for WEDM purposes.

## Kits

<b>ER-009696</b>	<b>UnoSet Basic Kit manual</b>
<b>ER-007962</b>	<b>UnoSet Basic Kit pneumatic</b>
Version	Basic tooling system equipment for WEDM centers.
Application	Suitable for the palletization of small and medium-sized workpieces.
Mounting	Depending on the machine base, we recommend the multi-adapter plate ER-017198.
Kit contains	1 chuck 1 UniVise universal vise
Note	Machine-specific information can be found at <a href="http://www.erowa.com/unoset">www.erowa.com/unoset</a> or at your EROWA dealer.

<b>ER-017198</b>	<b>Multi-adapter plate</b>
Application	To fit the UnoSet chuck to the machine base
Mounting	Through the adjustable borehole grids with the bolts supplied.

<b>ER-021502</b>	<b>Starter Kit PalletSet W, manual</b>
<b>ER-021503</b>	<b>Starter Kit PalletSet W pneumatic</b>
Version	Basic tooling system equipment for WEDM centers.
Application	Suitable for the palletization of medium-sized workpieces.
Mounting	Directly to the machine base with the fittings supplied.
Kit contains	1 chuck 1 fixholder 1 vise 1 manual control unit (pneumatic)
Note	Machine-specific information can be found at <a href="http://www.erowa.com/palletset">www.erowa.com/palletset</a> or at your EROWA dealer.

	<b>Starter Kit FrameSet, fix</b>
	<b>Starter Kit FrameSet, basic</b>
	<b>Starter Kit Frameset, manual</b>
	<b>Starter Kit Frameset, pneumatic</b>
Version	Basic frame tooling system equipment for WEDM centers. Manually or pneumatically controlled chucks according to your choice. With the FrameSet fix version, the clamping frames are firmly bolted to the machine base.
Application	Suitable for the palletization of small and medium-sized workpieces.
Mounting	directly to the machine base with the fittings supplied.
Kit contains	2 FrameSet fix plates or corresponding chucks 1 clamping frame of the machine-specific size 2 fitting clamping beams 1 set clamping equipment 1 set frame supports Fittings and pneumatic materials where necessary
Note	Machine-specific information can be found at <a href="http://www.erowa.com/frameset">www.erowa.com/frameset</a> or at your EROWA dealer.

	<b>ManoSet Kit XXL</b>
Version	Basic frame tooling system equipment for WEDM centers. Fixed rails serve as the basis for the clamping beams.
Application	On large WEDM centers.
Mounting	Directly to the machine base with the fittings supplied.
Kit contains	1 set machine-specific base rails 2 fitting clamping beams 1 set clamping equipment
Note	Machine-specific information can be found at <a href="http://www.erowa.com/manoSet">www.erowa.com/manoSet</a> or at your EROWA dealer.

# EROWA Sine Dividing Head ITS

The highest precision-the simplest handling

#### Your advantages

- Workpieces and electrodes are clamped and machined simply, quickly, and with precision.
- Thanks to the precision of the integrated ITS rapid-action chuck, workpieces need not be realigned when they are changed.
- Full ITS universality is guaranteed.
- Simple to fit on any milling, grinding or EDM center.

The EROWA Sine Dividing Head ITS is easy and quick to fit on the machine table, with only two bolts.

The workpiece is clamped with the precision of the ITS tooling system, with a repeatability of 0.002 mm.

1  
Standardization

**Function**

The Sine Dividing Head offers you the following possibilities:

ITS S rapid-action chuck, able to rotate round 360°, indexing vernier 5 minutes (0.08°).

... swivelable round 90° with ...

... sine function.

**Technical data**

ER-010427	<b>EROWA Sine Dividing Head</b>
Titling range	0°–90°
Rotating axis, rapid-action chuck	360°
Chuck indexing	4 x 90°
1 turn on crank	4.5°
Air connection	M5
Air pressure	7 bar
Weight	22 kg
Concentricity	
rapid-action chuck/rotating axis	± 0.015 mm
Axial load	500 N
Clamping, indexing and rotating axes	mechanical
Materials	Corrosion resistant

Option	
ER-010567	<b>Manual valve</b>

EROWA®

ITS

# EROWA Rotating Spindle

The smallest boreholes with the greatest precision.

The ITS tooling system allows for a simple and precise integration of the rotating spindle into the machine. Electrodes of 0.2-10 mm in diameter are clamped and aligned with precision.

#### Your advantages

- Quick and easy mounting of the rotating spindle.
- Manufacturing of the smallest boreholes with the greatest precision.
- Short machining time thanks to an optimal synchronization of rotation speed and flushing pressure.
- Can be used on any EDM center, thanks to the ITS tooling system.

The wide range of speed helps achieve very good results, even with the finest tubes (see chart).

Material	hardened steel (x 210 CRW 12)
Thickness	8 mm
Flushing pressure	5 bar
Electrode	Cu $\varnothing$ 0.4 mm
Generator setting	constant

The right ratio between speed, electrode diameter, flushing pressure and generator setting ensures an optimal machining rate.

### Technical data

# EROWA PM Tooling

## Pressing powder with system

Pressed-powder parts are becoming more and more refined.  
The special shapes are manufactured in small batch sizes.  
Powder presses have to be reset frequently.  
EROWA's PM Tooling cuts resetting time to less than 2 minutes!

It's plain to see: if resetting times must be reduced, a tooling system will have to be used. The EROWA PM Tooling was specifically designed for use under high pressure.

Upper punch on EROWA PM Tooling pallet  
Positioning accuracy < 0.002 mm.

Die-plate on EROWA PM Tooling pallet  
Positioning accuracy < 0.002 mm.

Lower punch on the EROWA PM Tooling pallet  
Positioning accuracy < 0.002 mm.

The upper and lower punches as well as the die-plates are machined on the PM Tooling, right from the start until they are used in the press. Thanks to the system's positioning accuracy and stability, all the punches and die-plates produced on the system can be changed in the twinkling of an eye.

**Applications**

Milling

EROWA®

PM Tooling

# EROWA PM Tooling

## Universal from milling to pressing

Punches and die-plates are produced on pallets, with exact centricity. PM Tooling pallets are compatible with all EROWA P chucks. The EROWA PM Tooling allows for the complete automation of your machine.

### Milling

Electrodes used to EDM the molds are machined on ITS system holders. The reference position is provided by the chuck.

### EDM

Shapes in the surface of the punches are EDMed. The reference position is provided by the chuck.

### Grinding

Punches may also be machined on cylindrical grinding machines. The reference position is provided by the chuck.

### Wire-EDM

The contours are produced on a WEDM center. The reference position is provided by the chuck.

### Powder pressing

Top and bottom punches and the die-plate are inserted into the press. The reference positions are provided by the precisely aligned chucks.

## Changing variants in 2 minutes

Pneumatically loosen die-plate and both punches.

Insert and clamp new die-plate and punches.

Produce new molds.

### Chucks

Technical data	PM chucks
Repeatability	0.002 mm
Indexation	4 x 90°
Opening with dry compressed air	6 bar min.
Clamping	Spring pressure

#### ER-047544 Die-plate chuck PM128 II Precise

- Version** Steel, hardened. Through borehole  $\varnothing 86$ . External seal.
- Clamping power** Reclamped at 6 bar: 23000 N.
- Connections** At the rear, with two lines.
- Operation** With control unit.
- Application** On milling machines and powder presses.  
To accommodate PM 128 die-plate pallets Precise.

#### ER-047566 Die-plate chuck PM128 II Precise with base plate

- Version** Steel, hardened, corrosion-resistant. Through borehole  $\varnothing 86$ . External seal.
- Clamping power** 20000 N.
- Operation** Laterally with compressed-air gun or with control unit.
- Application** On milling machines, lathes, grinding machines and EDM/WEDM centers.  
To accommodate die-plate pallets PM128 Precise and Multi.

#### ER-040697 Chuck PM85 Precise

- Version** Steel, hardened, corrosion-resistant. Through borehole  $\varnothing 25$ .
- Clamping power** 9000 N.
- Connections** At the rear, with two lines.
- Operation** With control unit.
- Application** On milling machines, lathes, EDM/WEDM centers and powder presses.  
To accommodate pallets PM85 Precise.

**ER-040696 Chuck PM85 Precise with base plate**

- Version** Steel, hardened, corrosion-resistant. Through borehole  $\varnothing 25$ .
- Clamping power** 9000 N.
- Connections** Laterally, with two lines.
- Operation** With control unit.
- Application** On milling and grinding machines and on EDM/WEDM centers. To accommodate pallets PM85 Precise and Multi.

**ER-055370 Chuck PM60 Precise**

- Version** Steel, hardened, corrosion-resistant. Through borehole  $\varnothing 25$ .
- Clamping power** 6500 N.
- Connections** At the rear, with two lines.
- Operation** With control unit.
- Application** On milling machines, lathes, EDM/WEDM centers and powder presses. To accommodate pallets PM60 Precise.

**ER-047500 Chuck PM60 Precise with base plate**

- Version** Steel, hardened, corrosion-resistant. Through borehole  $\varnothing 25$ .
- Clamping power** 6500 N.
- Connections** Laterally, with two lines.
- Operation** With control unit.
- Application** On milling and grinding machines and on EDM/WEDM centers. To accommodate pallets PM60 Precise.

# EROWA

## PM Tooling

### Workpiece carrier

#### ER-034680 Die-plate pallet PM128 ø 52 Precise 1 unit

- Version** Steel, hardened, corrosion-resistant.  
Centering integrated in pallet. Inside ø 52. 1 unit.
- Application** For use on die-plate chuck PM128 Precise. To accommodate die plates, workpieces and fixtures for chip-cutting machines, EDM/WEDM centers and powder presses.
- Fitting blanks** Through the pallet with M6 bolts or through the workpiece with M8 bolts.

#### ER-040701 Pallet PM85 Precise 1 unit

- Version** Steel, hardened, corrosion-resistant.  
Centering integrated in pallet. Inside ø 25. 1 unit.
- Application** For use on EROWA Chuck PM85 Precise. With chucking spigot ER-039839 on Production-Chuck 210 Combi, PowerChuck P, ITS Chuck 100 P and QuickChuck 100 P. To accommodate workpieces and fixtures for chip-cutting machines, EDM/WEDM centers and powder presses.
- Fitting blanks** Through the pallet with M6 bolts or through the workpiece with M8 bolts.

#### ER-055369 Pallet PM60 Precise 8 units

- Version** Steel, hardened, corrosion-resistant.  
Centering integrated in pallet. Inside ø 25.
- Application** For use on EROWA Chuck PM60 Precise. With chucking spigot ER-041429 on Production-Chuck 210 Combi, PowerChuck P, ITS Chuck 100 P and QuickChuck 100 P. To accommodate workpieces and fixtures for chip-cutting machines, EDM/WEDM centers and powder presses.
- Fitting blanks** Through the pallet with M6 bolts.

#### ER-035792 Adapter pallet P PM Precise for die-plate pallet PM128

- Version** Hardened steel, corrosion-resistant.
- Application** Serves as an adapter between the die-plate pallets PM128 Precise and Multi and an ITS Chuck 100 P or a PowerChuck P.

# EROWA PreSet 3D CNC

Machining centers must be relieved of any unproductive work as much as possible. Presetting and measuring workpieces and electrodes are jobs that can be more efficiently done on a measuring station.

The motto is presetting while the machine is working. With the PreSet 3D CNC, you provide your operators with a facility that has been optimally designed for such a purpose.

**Automatic**  
Serial measurements with the integrated CNC control system are carried out automatically.

Machine weight (without load)	775 kg

**Renishaw probe unit RTP20**  
One of the best probing systems for three-dimensional measurement.

**Rails**  
High-precision Renishaw rails with optical probe heads guarantee the best results.

**Machine design**  
Specially cast aluminum for optimal dimensional and thermal stability.

**Natural granite**  
The high-precision workplate of black granite constitutes the base for all EROWA tooling systems that can be set up. Attachment boreholes have been prepared.

**Air bearing**  
All the axes are moved on high-precision air bearings. The Z-axis is equipped with an automatic brake in case of pressure loss.

**Tooling system operation**  
All the systems can be opened by means of a simple lever.

**Software**  
PreSoft XP – this graphically designed aid will turn everyone into a measuring specialist.

**Motorized axes**  
All the axes are driven by DC servo motors.

**Joystick control**  
Optimal operation for safe measurement. One joystick for all the axes.

**EROWA PreSet 3D CNC – a measuring and presetting cell with many advantages**

- More than 100 animated PreSet programs
- Efficient database for all the measured values
- Safe workpiece identification possible with EWIS™
- Many postprocessors additionally available for the conversion of measured data into the machine language

# EROWA PreSet 3D

## MAN

When it comes to thousandths of a millimeter, you can't do things by halves. PreSet 3D MAN satisfies the most exacting requirements. Due to its modular principle, the system can be flexibly adapted and extended. We assume the system responsibility for the project from installation and training right through to maintenance. Comfortably and competently.

### Precision

Base plate, traverse and quill have been crafted from natural hard stone. Portal structure of specially cast aluminum for optimal form stability and temperature stability.

### Technical data

Range X-axis	400 mm
Range Y-axis	500 mm
Range Z-axis	440 mm
Maximum distance between table and probe holder (without probe)	547 mm
Maximum distance between the columns at table height	590 mm
Usable surface of the granite plate (with EROWA borehole pattern)	590 x 840 mm
Resolution, scales	0.0005 mm
Measuring uncertainty (according to ISO 10360/2)	$M = 0.0025 + 0.003 \times L$
<b>Machine dimensions</b>	
Height	2400 mm
Surface	920 x 920 mm
Maximum workpiece load	130 kg
Maximum probe weight	1.2 kg
Machine weight (without load)	210 kg

### EROWA PreSet 3D MAN

- Measuring machine (working plate with borehole grid for all EROWA tooling systems)
- Pneumatic control system
- PC and color printer
- Presetting software
- Renishaw measuring probe TPC 3
- Calibration ball

For additional details, please contact your EROWA dealer.

EROWA®

PreSet 3D MAN

# Basic equipment

## EROWA PreSet 3D CNC and 3D MAN

Measuring stations are equipped with EROWA tooling systems according to requirements. Some of these tooling systems can be mounted on one and the same table in combination.

### ER-035526 MTS Chuck 3D

**Version** Pneumatic MTS Single Chuck for PreSet 3D.  
**Mounting** With clamping ring directly to prepared borehole pattern.  
**Application** To accommodate MTS Single ITS 148 P pallets.  
**Combination** The MTS Chuck 3D can be fitted in combination with one of the following systems: FrameSet (on 3D CNC only), PalletSet W, UnoSet, ITS Compact CombiChuck, Power Chuck P.

### ER-035527 MTS 360 3D

**Version** MTS Base plate with four clamping units.  
 Plate dimension 360 x 360 mm.  
**Mounting** With fitting accessories directly to prepared borehole pattern.  
**Application** To accommodate MTS twofold and fourfold pallets with set-up distance of 200 mm.

### ER-035528 MTS 410 3D

**Version** MTS Base plate with four clamping units.  
 Plate dimension 410 x 410 mm.  
**Mounting** With fitting accessories directly to prepared borehole pattern.  
**Application** To accommodate MTS twofold and fourfold pallets with set-up distance of 250mm.

### ER-020571 UPC Kit with RSA 100

**Version** UPC with integrated ITS chuck.  
**Mounting** Directly to prepared borehole pattern.  
**Application** To accommodate all UPC, ITS 148 and ITS 115 pallets, as well as holders 72 and 50.  
**Combination** The UPC can be fitted in combination with one of the following systems: FrameSet (3D CNC only), PalletSet W, UnoSet.

### ER-035529 PC 210 3D ER-035530 PC 210 Combi 3D

**Version** Pneumatic chucks. PC 210 Combi 3D with integrated PowerChuck.  
**Mounting** With fitting accessories directly to prepared borehole pattern.  
**Application** To accommodate PC 210 pallets. In the combined version, pallets 148 and 115 and holder 72 and 50 can also be clamped.  
**Combination** The PC 210 can be fitted in combination with one of the following systems: PalletSet W, UnoSet.

### ER-029434 PowerChuck P 3D

**Version** Pneumatic chuck on base plate.  
**Mounting** Directly to prepared borehole pattern.  
**Application** To accommodate ITS 148 P, 148 and 115 pallets, as well as holders 72 and 50.  
**Combination** The PowerChuck can be fitted in combination with one of the following systems: FrameSet (on 3D CNC only), PalletSet W, UnoSet, MTS chuck.

### ER-025060 ITS Compact CombiChuck 3D

**Version** Chuck with integrated Compact Chuck.  
**Mounting** Directly to prepared borehole pattern.  
**Application** To accommodate ITS 148 and ITS 115 pallets, holders 72 and 50, and all the Compact 30 holders.  
**Combination** The ITS Compact CombiChuck can be fitted in combination with one of the following systems: FrameSet (on 3D CNC only), PalletSet W, UnoSet, MTS chuck.

### ER-046080 FrameSet Base 3D

**Version** Pneumatic chuck (only for PreSet 3D CNC).  
**Mounting** With fitting accessories directly to prepared borehole pattern.  
**Application** To accommodate FrameSet clamping frame.  
**Combination** The FrameSet can be fitted in combination with one of the following systems: UPC, PowerChuck P, ITS Compact CombiChuck, MTS Single Chuck.

### ER-022683 PalletSet W Base 3D

**Version** Pneumatic flat chuck mounted on column.  
**Mounting** Directly to prepared borehole pattern.  
**Application** To accommodate all PalletSet W holders.  
**Combination** The PalletSet W can be fitted in combination with one of the following systems: UPC, PowerChuck P, ITS Compact CombiChuck, MTS Single Chuck, PC 210.

### ER-012580 UnoSet Kit Support 3D

**Version** Pneumatic chuck mounted on column.  
**Mounting** Directly to prepared borehole pattern.  
**Application** To accommodate all UnoSet holders, as well as holders 72 and 50, in a horizontal position.  
**Combination** The UnoSet can be fitted in combination with one of the following systems: UPC, PowerChuck P, ITS Compact CombiChuck, MTS Single Chuck, PC 210.

# EROWA PreSet 2D

## Electrode preset made easy

The electrode presetting station for every contingency. The matured design does justice to everyday life in the workshop. Measurements in the X-, Y-, Z- and C-axes can be carried out quickly and safely. The data output of the measured values are integrated. The presetting station can be equipped with various tooling systems.

### 2D probe

Simply ingenious: the 2D edge probe (EROWA patent) enables you to make the necessary measurements on radii, edges, corners and oblique surfaces.

### Display

The practical user guidance in the EROWA mode shows step by step how offset values are determined.

### Order numbers

#### without C-axis

ER-057208	PreSet 2D UnoSet
ER-057209	PreSet 2D PalletSet W
ER-057210	PreSet 2D UPC
ER-057211	PreSet 2D ITS Compact Combi
ER-057212	PreSet 2D ProductionChuck 210

#### with C-axis

ER-057213	PreSet 2D+C ITS Chuck 100
ER-057214	PreSet 2D+C ITS Compact Combi

### Complete equipment

The measuring station is supplied with the following elements:

- Measuring slab with trolley
- Integrated chuck
- PT880 digital display with presetting mac
- Two-axis measuring facility
- EROWA 2D edge probe
- Instruction manual
- Detergent for hard-stone slab

# EROWA PreSet 2D

## Options and accessories

EROWA PreSet 2D

2

Organization

**EROWA 2D edge probe** ER-040983  
Precise probing of sharp edges, angles, diameters and lengths.

**Measuring pin** ER-008617  
Alignment of radial and axial and angular positions of ITS chucks.

**Probe inserts**

A	ER-008623
B	ER-008562
C	ER-008831
D	ER-008628

for 2D edge probe.

**Microscope** ER-008756  
To view profiles, indentations and boreholes, with a magnifying factor of 30.

**3xM2 probe insert** E ER-009899  
ø 2 mm F ER-003350  
ø 1 mm G ER-003358  
for 2D edge probe.

**Cold light**

220 V	ER-032916
110 V	ER-032917

For the microscope: for optimal light on the area to be magnified.

**Lever gauge** ER-059439  
Analogue gauge with a diameter of 38mm and a resolution of 0.002 mm.

**QuickLink**  
To record data and convert them into machine-specific formats.

### Technical data

	EROWA PreSet 2D
Movement X	240 mm
Movement Y	320 mm
Movement Z	335 mm
Evaluation unit	Heidenhain Positip 880 with EROWA presetting macros
Interface	Serial RS232 for data transfer to QuickLink / parallel output for printer
Probe system	EROWA 2D edge probe
Space requirements	500 x 800 x 1000 mm
Compressed-air supply	min. 6bar, dry

QuickLink is a simple program for the data transfer from the EROWA PreSet 2D presetting station to machine control units. Presetting data are converted into a machine-specific format at the push of a button.

EROWA®

PreSet 2D

# EROWA PreSet Basic

PreSet Basic is the ideal setting and presetting station for a quick check of the Z-plane or to align workpieces in the Y-axis. Its stable trolley enables you to place it wherever it makes most sense in terms of work.

<b>ER-057206</b>	<b>PreSet Basic UPC</b>
Version:	Presetting station with trolley, measuring top, UPC chuck and probe
Load:	100 kg
Application:	Setting and aligning of workpieces on UPC pallets

<b>ER-057205</b>	<b>PreSet Basic PalletSet W</b>
Version:	Presetting station with trolley, measuring top, PSW chuck and probe
Load:	25 kg
Application:	Setting and aligning of workpieces on PalletSet W holders

<b>ER-057204</b>	<b>PreSet Basic UnoSet</b>
Version:	Presetting station with trolley, measuring top, UnoSet chuck and probe
Load:	10 kg
Application:	Setting and aligning of workpieces on UnoSet holders

## Technical data

PreSet Basic	UPC	PalletSet W	UnoSet
Operational weight (kg)	230	220	230
Max. load (kg)	100	25	10
Gauge gradation (mm)	0.002	0.002	0.002
Probe system	analog dial gauge on flexible stand		
Space requirements (mm)	800 x 500 x 1000		

# Measuring tools and options for EROWA set-up and presetting stations

A variety of sensible components make it easy for you to have everything under control in a practical manner. These products are invariably supplied with a quality certification.

**Alignment pallet MTS 200** ER-037870  
**Alignment pallet MTS 250** ER-037875

To align the angular position and to establish the center of MTS chucks.  
Pallet 396 x 198 mm  
Alignment length 200 / 250 mm

**Alignment gauge PalletSet W**  
ER-032035

To align the angular position and to establish the center of flat chucks.  
Pallet PalletSet W

**Alignment pallet MTS ø 148** ER-037877

To align the angular position and to establish the center of MTS single chucks.  
Pallet ø 148 mm  
Alignment length 130 mm

**Measuring pin** ER-008617

Alignment of radial and axial and angular positions of ITS chucks.

**Alignment pallet UPC** ER-017777

To align the angular position and to establish the center of UPC chucks.  
Pallet 320 x 320 mm  
Alignment length 320 mm

**Checking pin 50** ER-010723

Alignment of radial and axial positions of ITS chucks.

**Alignment pallet PC 210** ER-032907

To align the angular position and to establish the center of PC-210 chucks.  
Pallet Clamping ring  
PC 210  
Alignment length 210 mm

**Checking pin for Compact** ER-017541

To align the tooling system on the PreSet station.

**Alignment pallet ITS** ER-032819

To align the angular position and to establish the center of ITS chucks.  
Pallet ø 115 mm  
Alignment length 110 mm

**Reference pin UnoSet** ER-012727

Determination of reference measurements on horizontal chucks.  
Borehole ø 8 mm

**Zero master** **ER-007796**  
To check the «Z = 0 height».

**EWIS™ identification system** **ER-035990**  
Hardware module.  
Read/write head and evaluation unit.

**Cleaning agent**  
**DIACLEAN** **ER-001516**  
For granite tables.  
Content: 0.1 l.

**EWIS chip with holder SW14** **ER-035154**  
For pallets and electrode holders.  
EWIS™ Chip: read only.  
Compatible with the EWIS™ Rapid system.

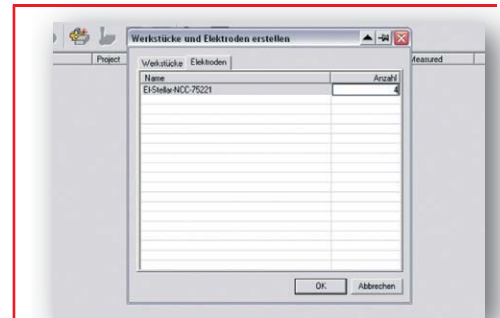

# EROWA QuickLink<sup>XT</sup>

QuickLink<sup>XT</sup> is a simple program for the data transfer from the EROWA PreSet 2D presetting station to a machine control unit. Set up a PC, insert the CD, install the program, plug in the connecting cable between PC and display, and the comfortable data transfer to the machine or the programming station is ready.

### Stored projects

The projects are stored to document the working steps. This information can be called up and printed out at any time.

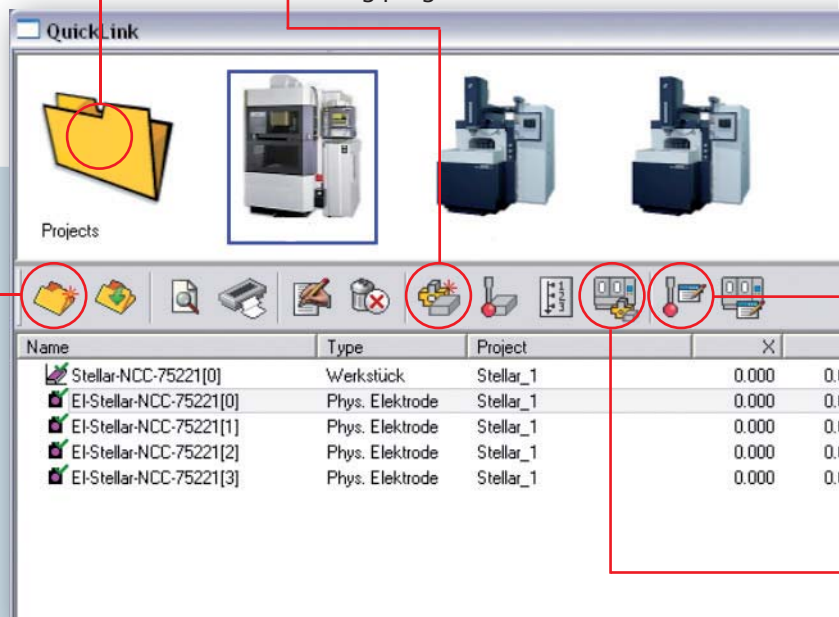

### Number of electrodes

At the beginning, the number of electrodes to be measured is defined. This will guarantee an overview of the working progress.

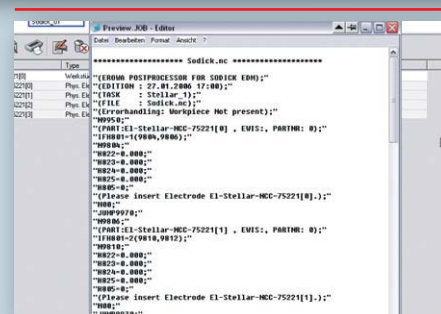

### New project

Every new job is given a designation. In this way, it can easily be found again. Even at this early stage, the job has been allocated to a machine.

### Control is good

Before the export, you can check whether the result comes up to expectations.

Type	Project	Value
Werkstück	Stellar_1	0.0
Phys. Elektrode	Stellar_1	0.0
Phys. Elektrode	Stellar_1	0.0
Phys. Elektrode	Stellar_1	0.0
Phys. Elektrode	Stellar_1	0.0

**Receive measured data**

QuickLink<sup>XT</sup> is ready to take over the data from the presetting station. The transmission command is triggered in the control unit of the presetting station.

Y	Z	C	Memory	Measured
0.000	0.000	0.000	0	Nein
0.000	0.000	0.000	1	Nein
0.000	0.000	0.000	2	Nein
0.000	0.000	0.000	3	Nein
0.000	0.000	0.000	4	Nein

Assign to memory positions

Elektroden  
Number of: 4

Assign to memory positions: 1 - 4

Available memory positions: 1 - 10

OK Abbrechen

**Allocate memory space**

The memory positions are defined at once in order to avoid any confusion during the transfer to the machine control unit.

Project	X	Y	Z	C	Memory	Measured
Werkstück	Stellar_1	0.000	0.000	0.000	0	Nein
Phys. Elektrode	Stellar_1	0.000	0.000	0.000	1	Nein
Phys. Elektrode	Stellar_1	0.000	0.000	0.000	2	Nein
Phys. Elektrode	Stellar_1	0.000	0.000	0.000	3	Nein
Phys. Elektrode	Stellar_1	0.000	0.000	0.000	4	Nein

**Data export**

All the selected measured data are converted into the specific machine format at the push of a button. They can be stored on a diskette or in a network directory.

Presetting data of electrodes are transferred to the machine with ease and speed. The X-, Y-, Z- and C-values are determined on the PreSet 2D presetting station and transmitted to QuickLink<sup>XT</sup> at the push of a button. All the data of one job are converted into the specific machine format.

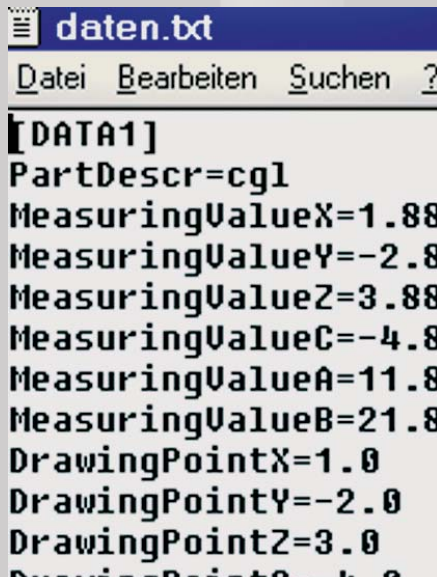

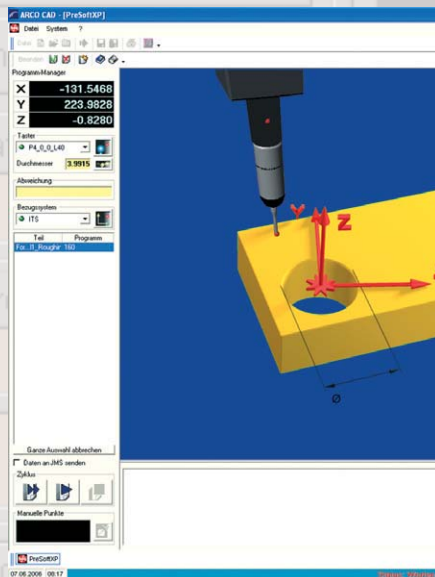

# EROWA JMS<sup>®</sup> Pro Organization

## Presetting and

## measuring made simple.

JMS<sup>®</sup> Pro Organization consists of program modules that are connected with data import, setting up and presetting.

Presetting data are the most important feature of job preparation. They must be accessible from everywhere at all times. For this reason, the EROWA JMS<sup>®</sup> Pro software stores all the data in a machine-neutral format. Only the relevant JMS<sup>®</sup> Pro Cell Integration products will convert the data into the desired machine format. The decision as to the center on which the job will be processed need not be made at the point in time when the part is preset. Any available machine can be chosen just before the job is done.

JMS<sup>®</sup> Pro PreSet 3D is the presetting software with user guidance and automatic data recording in JMS<sup>®</sup> Pro.

JMS<sup>®</sup> Pro PreSet Import links up the most popular measuring stations with JMS<sup>®</sup> Pro. Data import is largely automatic.

The EWIS<sup>™</sup> Rapid identification system provides an overview of holders and pallets. With the modern transponder chips, every pallet can be identified at any time. The handling facilities examine the magazine loads automatically. Handheld reading heads are used on the set-up and measuring stations. (The EWIS<sup>™</sup> Rapid equipment is available as an option).

### Your advantages

- Entry into the EROWA Job Management System.
- A fully developed measuring software is included.
- More than 60 presetting programs are available.
- Quick change from presetting to measuring software with the help of a button.

The EROWA JMS<sup>®</sup> Pro PreSet software package offers you all the necessary tools for productive, routine-informed presetting.

**JMS<sup>®</sup> Pro Organizer**  
Data organization module for data management and to set up and identify workpieces.

**JMS<sup>®</sup> Pro JobManager CMM**  
Control module for automatic quality measurements on PreSet 3D CNC.

**JMS<sup>®</sup> Pro PreSet 2D**  
Data organization module for the integration of the time-tested electrode presetting station.

**EWIS<sup>™</sup> Rapid Identification System**  
The assignment of data to workpieces provides a good overview. With the modern transponder chips, every pallet can be identified at any time. On set-up and measuring stations, identification is carried out with manual scanners, while EROWA handling facilities identify their magazine content automatically.

**JMS<sup>®</sup> Pro PreSet 3D**  
Data organization module for the integration of the EROWA 3D measuring station.

**JMS<sup>®</sup> Pro PreSet Import**  
Data organization module for the import of data from other measuring stations.

Automatic quality control:  
The measuring station is equipped with a Robot. The JMS<sup>®</sup> Pro JobManager will link up the right parts with the suitable measuring programs.

# EROWA PreSoft XP

## Presetting made easy

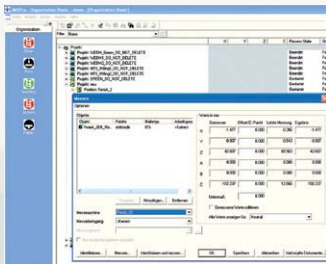

Presetting provides more productive time on machine tools. However, presetting must be as efficient as possible in itself. PreSoft XP takes this demand into account.

**1.** Graphic user guidance enables every operator to preset parts correctly within a short period of time. The processes can be learned intuitively. Knowledge of 3D measurements are not required.

**2.** The reference positions are controlled, which guarantees that the offset values always receive the correct reference point.

**3.** The automatic assignment of offset values to the ID numbers of electrodes and workpieces creates a high degree of process safety.

**4.** Quick as-should-be/as-is comparisons of diameters or distances can be conducted thanks to simple measuring macros.

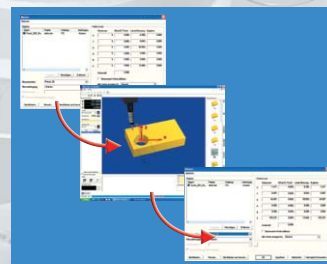

**5.** Generate your own macros for quick and safe measurements. Process safety will increase since the optimized macros cover exactly your requirements.

**6.** Already integrated: more than 100 frequently used measuring processes as macros. Select, move, done!

**7.** The animated arrow symbol shows the right measurement sequence: everyone can determine presetting data correctly without any prior training.

**8.** PreSoft XP is seamlessly integrated in JMS® Pro. The presetting function is activated by a mouse-click. The offset data that have been recorded are automatically transmitted from the measuring station into the JMS® Pro system.

# EROWA PreSoft XP

EROWA PreSoft XP

## Convincing advantages

PreSoft XP is more than a mere presetting software. Genuine quality measurements with proper protocols can be carried out after a certain amount of training.

The integrated Arco CAD module enables you to generate proper measurement protocols in accordance with the ISO standard. Arco is a product of Co-ord3. It is recommended that operators undergo specific training for the use of the measuring software.

On the basis of Arco, user guidance is generated with animated symbols. Every operator can move through this program intuitively and safely thanks to its graphic representation.

Arco CAD allows for CAD data to be integrated. The areas to be measured are selected and calculated on the basis of the imported data. This function is particularly suitable for the measurement of complex 3D shapes.

**Robot Easy**

# EROWA Robot Compact

## Productivity on 2m<sup>2</sup>

Would you like to increase a machine's autonomy? Are the workpieces numerous but not very big? Do you only have a little room left around the machine? Do you want to serve two machines with the same handling facility? If you can answer one of these question with YES, then we are just what you're looking for. The EROWA Robot Compact is the answer to your requirements.

Symmetrical design for positioning to the left or right of the machine

Max. 30kg transfer weight

X-stroke 1200mm

350° swivel axis to serve the two rack magazines and up to two machines

2 rack magazines with up to 160 magazine positions

Freely adjustable height of the magazine levels

Compact monobloc design on only 2m<sup>2</sup>

\*160 x ITS 50  
Holder 72  
PM 56

\*60 x ITS 115/148  
MTS 148

PalletSet W  
\*24 x Holder

\* Examples of the number of possible magazine positions.

### Layout (examples)

With longer machining times, it is worth using one Robot to serve two machines. The Robot's capacity is put to better use, and precious shop-floor space is optimally utilized.

There is sufficient work reserve for a whole weekend of WEDM in the magazine. If necessary, a setting-up and presetting station for the workpieces is placed on the other side.

**Technical Data**

EROWA Robot Compact	
Transfer weight	30 kg
Magazine positions, max.	160
Magazine levels, max.	10 per side = 20 levels
Magazine load, max.	1000 kg
Electrically powered and controlled axes	X-stroke 1200 mm Z-stroke 1680 mm min.
Swivel range, C-axis	350°

JobManagement	JMS® Pro / EMC

**Transfer axis**

The ingeniously designed axis can swivel round 350° in a very small space. Correspondingly, it can serve both rack magazines and one or two machines. If required, the gripper change function for mixed operations with different pallets can be integrated.

**DockOn**

The Robot can often only be placed on the operator's side of the machine. This blocks access for manual work. With the optional „DockOn“ equipment, the facility can simply be moved to the side if the operator wants to do some manual work.

Compact

EROWA®

# EROWA Robot Multi for 270 workpieces and electrodes

To load one or two machines.

X-stroke 1200 mm

Magazine can be loaded from 3 sides and is accessible for loading crane

Gripper arm with swivel axis

Fast change times with double gripper

80 kg transfer weight

Integrated control system

Servicing-friendly casing

Short starting-up times through compact monobloc design

Up to 270 magazine positions

Reading time < 30 seconds for the whole magazine with workpiece identification EWIS™ Rapid

To load one or two machines with 6 chucks max.

<sup>Ⓞ</sup> Depending on the tooling system

**Swiveling Gripper arm**

The Robot Multi also serves CNC machines with vertically aligned chucks. The swiveling gripper arm turns the palletized workpiece into the right position.

# EROWA Robot System ERS

- one for all

The handling facility for all the tooling systems. With a transfer weight of 130kg and a range of 1200mm, the ERS is suitable for the handling of many workpieces. It can be configured to serve one or more machines.

Transfer unit with X-, Z- and C-axis  
130 kg transfer weight  
Swivel range, C-axis: 350°

Up to 3 rotary or 5 rack magazines. Mixed use also possible

Reading time for the whole magazine <30 seconds. EWIS™ Rapid workpiece

X-stroke: 1200 mm  
(Option: 1500mm)

Open to various positioning option  
Magazines and transfer unit can be freely positioned within the range.

**EROWA ERS Heavy** to load/unload heavy workpieces up to 200kg.

Ergonomic loading station for pallet loading/unloading cycles.

Example of a "two-machine" unit, consisting of:

- Transfer unit
- Gripper dock
- Two rotary magazines UPC / ITS 50
- One EROWA Lift
- Safety barriers
- EROWA JMS® Pro Job Management System

This configuration is particularly suitable for the flexible operation of two independent machining centers.

EWIS™ Rapid identifies all the cell positions and transmits them to the cell computer.

# EROWA Robot System Linear

## Well-thought-out and modular

The ERS Linear can provide up to 8 machines with workpieces. Identical work processes can be conducted in parallel. It is also possible, however, to run one whole process through various machining types. The positioning accuracy on the linear axis guarantees smooth pallet changes. Nevertheless, the transfer unit travels from one machine to another at the remarkable speed of 2 m/sec.

Eight milling centers are served by one Robot. For this purpose, 5 rotary magazines have been positioned in a compact way.

Even after fast movement, the transfer unit positions itself in front of the machine with an accuracy of half a millimeter. Only in this way are reliable pallet changes possible.

New workpieces are introduced into the linear cell with a loading station. This is also where completed workpieces are removed from the cell.

The whole process is controlled by the JMS<sup>®</sup> Pro process control software. LineManager.

Pallet weights of up to 200kg are transported from magazine to machine both reliably and accurately.

**Technical data**

EROWA Robot System Linear	
Transfer weight	130/200 kg
Magazine positions	1200
Linear axis length	20 meters
Movement speed	2 m/s
Number of machines served	8
Number of chuck positions	18
Double gripper	Yes
Gripper change	Yes
Automatic pallet identification	Yes
EROWA standard user guidance	Yes
Rack magazines	8
Rotary magazines	max. 5
Workpiece identification	EWIS™ Rapid
Adapter pallet management	automatic
Sealing ring management	automatic
JobManagement	JMS® Pro

The linear axis can be up to 20m in length. Movement speed is a proud 2 m/s.

The integrated measuring cell generates quality protocols without any intervention on the part of the operator. The certificates are filed for every job and can be traced in every case.

Magazines with work reserves are positioned in such a way that movements to the relevant machines are kept as short as possible.

**Quick and precise at 2 m/sec.**

The axis drives are state of the art. Acceleration and final velocity of the linear axis are adapted to working conditions. At 2 m/sec, the Robot moves to the loading/unloading positions quickly and precisely.

**A great deal of work reserve**

The control unit manages up to 5 rotary magazines with more than 1000 positions or 8 rack magazines.

**Linear axis of up to 20 meters**

Everything is possible between 3 and 20 meters. The linear axis is of a modular design. It can also be extended to the full 20 meters at a later date.

**EROWA®**

# EROWA Robot Heavy

## Automatically loading 500kg onto the machine

Getting large parts to the machine is not always all that easy. Setting-up times on the center are carried out at the expense of productivity. Setting-up while the machine is running and automatic loading/unloading cycles are the order of the day. The EROWA Robot Heavy solves this problem, even for one-off parts.

\*1 x MTS 400

\*1 x MTS 500

\*1 x MTS 600 x 800

\*1 x MTS 630 x 630

\* Number of possible magazine positions per level

### Rotating loading station

This ergonomic loading station for the setting-up and introduction of heavy pallets is integrated in the safety circuit.

### Transferachse

The maximum range of 1500mm also allows for big machines to be served. The transfer weight of 500kg (pallet and workpiece) will satisfy all requirements.

**Technical data**

Transfer weight	500 kg
Magazine levels	2 or 3
Magazine load	1000kg with 2 levels 1500kg with 3 levels
<b>Connections</b>	
<b>Pneumatic system</b>	
Min. pressure/max. consumption	5 bar / 450 l/min.
<b>Electric system</b>

Protocol	EROWA Standard/EWIS™
Pallet identification	EWIS™ Rapid VisuLink/AutoLink
Job Management	EROWA EMC Cell Manager EROWA JMS® Pro JobManager

**Gripper**

The gripper has been designed for pallets of up to 600x800mm in size and takes weights of up to 500kg safely to the machine. The integrated draining basin ensures cleanliness, as it collects chips and dripping-off coolants.

**Magazine**

Basically, the magazine can be equipped with two or three racks. With two levels, loaded pallets can have a maximum height of 850mm.

EROWA®

# EROWA LiftGear

Pallets weighing more than 20 kg must be inserted into the UPCs or MTS chucks on the machine in a gentle and accurate manner. With the LiftGear and an overhead crane, this is child's play.

## Your advantages

- Gentle machine loading.
- Increase in quality through careful and safe handling.
- Safety-conforming work

LiftGear UPC

## Applications:

Loading of machine tools, pallet magazines, Robot magazines, presetting and measuring stations.

LiftGear MTS

LiftGear UPC helps to change workpieces quickly, accurately and simply.

LiftGear MTS.

LiftGear with a PreSet Basic UPC.

Insertion of a UPC pallet on a universal milling machine.

EROWA®

# EROWA Lift

## Loading machines made easy.

The EROWA Lift has been designed for frequent pallet changes directly onto the machine or into the handling facility. Fitted in a fixed position next to the machine, it is always where it is needed and moves palletized workpieces from transport pallets even up to the topmost magazine rack.

Strong drive with two speeds.

Stable guidance of the Z-axis.

Two-handed control system with integrated operation.

Segmented arm for optimal accessibility.

RCS 5 control light "Gripper clamped".

Up/down movement at two speeds at the push of a button.

Solid anchorage to the floor with leveling facility.

"Open gripper" button.

Lift pallets without straining your back. Directly from the shop-floor trolley into the magazine, even right to the top rack.

We also supply special grippers, for instance for the handling of large grinding wheels.

Simple and safe handling even of heavy workpieces up to 250kg.

Flexible pallet positioning with the swivel arm.

Lifting the pallet from the transport system.

# EROWA EMC

## Simple & Ingenious

Cell control for production machines simplifies working activities. From the setting-up of jobs to the checking of available tool in the changer, everything is displayed in a simple and easy-to-view manner.

Made for milling! With EMC, it's easy to keep an overview. More productive hours are seen at a glance.

The Robot with magazine: the entire work reserve is on call and has been unequivocally identified by the chip ID system.

The machine tool with the EROWA table equipment, the automatic door and the tool magazine.

Cell control unit: the EROWA Manufacturing Control (EMC) software is the overriding tool through which the operator controls and monitors the cell.

The machine control unit transmits data from the tool changer to the EMC.

You can find more technical information in the special EMC flyer.

Integration

Everything at a glance: the machine operator always sees what's going on. The user surface is the same for all the cells, which makes deputizing easier.

Check the down times of the tools in use at a glance, and replace tools if necessary.

This is the work reserve that is available at this moment. Find out how the milling cell will remain productive at the touch of a button.

Should anything go wrong, the operator will be alerted. Information about the type of trouble is transmitted by e-mail or text message

# Automatically documented production process

JMS<sup>®</sup> Pro Workflow Management is not a slogan but a program. By making the data completely universal, it allows for comprehensive control throughout the workshop. From the CAD/CAM data import to the reporting of the completed jobs, everything can be viewed online.

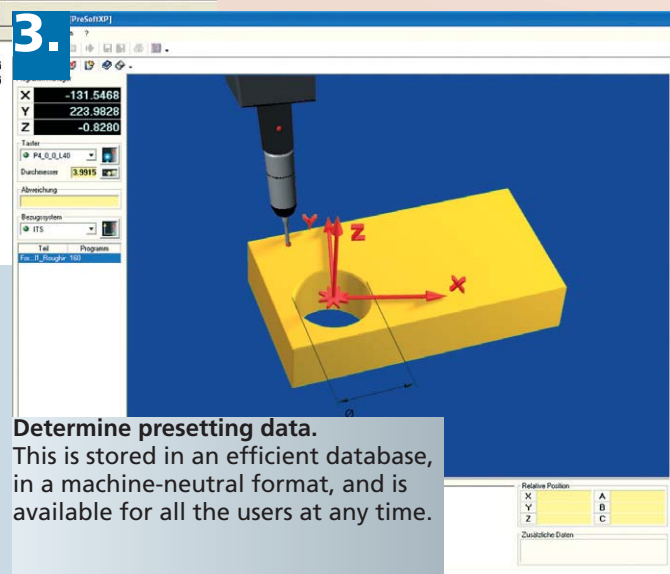

**Data import from CAD/CAM & PPS**  
Import of the job structure and generation of the work steps.

## Workflow - Management

Planning, control and monitoring of individual work processes . . .

**Managing and setting up.**  
Management of production data. Preparation of jobs while machine is at work. Identification of pallets through the electronic identification system EWIS<sup>™</sup> Rapid. The pallets are automatically identified on the basis of the built-in chip. The data is then transmitted to JMS<sup>®</sup> Pro.

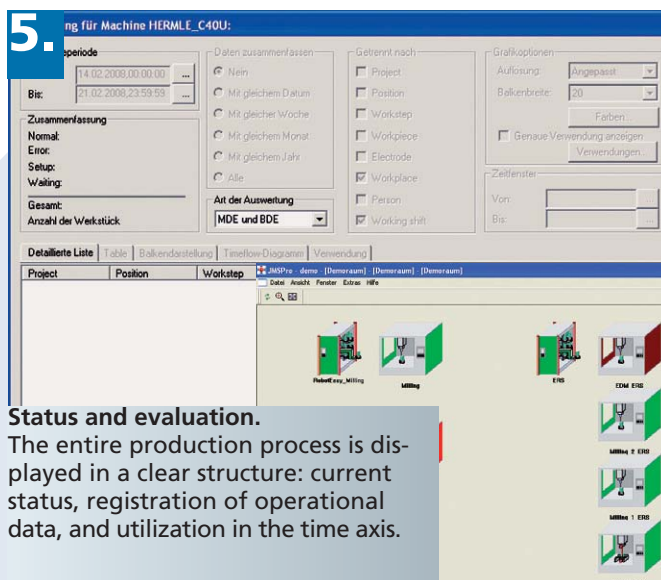

**Determine presetting data.**  
This is stored in an efficient database, in a machine-neutral format, and is available for all the users at any time.

**JMS Pro Message**  
 EDM Cell AQ 55L with EROWA Robot PX  
 Job #084457-4 successfully processed  
 Job #084457-5 successfully processed  
 Job #084457-6 missing tools - stopped  
 Job #096228-1 in process  
 Job #055892-5 ready

**Monitoring.**  
 Collects and transmits special events from the production cells. The relevant users are always informed.

- The production data is stored in a clear structure. You can access them at any time.
- The entire production process is displayed in JMS<sup>®</sup> Pro. You have an overview.
- Changes to the production process are effective online. You always know what is happening.

**Status and evaluation.**  
 The entire production process is displayed in a clear structure: current status, registration of operational data, and utilization in the time axis.

- JMS<sup>®</sup> Pro documents all the processes automatically. Traceability is guaranteed. You are in control of all the changes.
- The complete electronic dataflow from CAD to evaluation replaces the paper avalanche.
- JMS<sup>®</sup> Pro interlinks machines of a wide variety of technologies and generations. You choose yourself what should be part of the network.
- You determine the degree of integration yourself. Whether simple postprocessor or integrated workshop solution - we give you comprehensive advice.

**Machining.**  
 The production cell is controlled online. The user is able to influence all the priorities. This will guarantee a quick response.

- Workplaces become more interesting. With JMS<sup>®</sup> Pro users become machine managers.
- Whether EDM or WEDM, milling, drilling, turning, grinding or measuring: JMS<sup>®</sup> Pro integrates the facilities.

## From production cell to integrated manufacturing

JMS<sup>®</sup> Pro is characterized by its consistent modular structure. Starting with a simple postprocessor which outputs the offset values as defined for a given machine format to the fully interlinked workshop, everything can be extended in small, manageable steps.

EROWA®

# The next step is up to you.

Important matters require planning. And your next step is certain to be such an important matter. After all, you are setting off into a new, rational age. We will gladly accompany you on your way with advice, in daily operating procedures, so that you will know at any time what you are letting yourself in for.

The nearest EROWA agency is not far away. Take that important step.

## USA
